VOYAGE EXCLUSIVE

The Panama Canal Centennial has begun!

The Panama Canal is in its 100th year of operation.

We celebrate by extending an invitation to you: Be our guest on select departures for a one-night, two-day stay in Panama City to see the city's newest developments, including the Canal Expansion project before it's flooded!

Find details on pages 6 and 19.

DEAR TRAVELER,

The 1914 opening of the Panama Canal introduced a new term: Panamax, the maximum size (length and width) of a ship able to transit the Canal. In 2016 the completion of the Panama Canal Expansion will usher in a new metric: post-*Panamax*—a size one and a half times the current maximum ship width and length, and capable of carrying over twice as much cargo. Capping off the celebration of the Panama Canal's 100th birthday, the completion of the mammoth Expansion project will usher in a new chapter for Panama.

Our expedition season is perfectly timed to see the Canal Expansion—an impressive construction site if there ever was one— before the locks are flooded. And, we've created a special opportunity for you—to spend time, and an overnight, in Panama City, with our compliments. We'll visit the new Canal Expansion Observation Center for a front-row seat on the construction site, visit the much-lauded, new Frank Gehry-designed Biodiversity Museum, and enjoy the scale and the ambience of Panama City as it is today. Or, if you prefer, you may choose our Free Air offer. You'll find details on page 19.

We'll also make the most of the 'bucket-list' experience of transiting the Panama Canal in a special way — spending two days in the Canal Zone, to drop by the Smithsonian Biological Research Institute on Barro Colorado Island and meet some Smithsonian staffers. Then, we'll leave the man-made behind, to explore spectacular wild stretches of Costa Rica and Panama. We'll snorkel, swim, kayak along the shores of wild islands, venture up rain forest-canopied rivers in expedition landing craft— and inaugurate the fleet of new paddleboards onboard, an experience available to beginners and veterans alike. Top experts—the naturalists, biologists, photographers aboard —will help you see, do, and learn more. And you'll benefit from the onboard Lindblad-National Geographic certified photo instructor who'll help you capture it all in your best photos ever.

And speaking of choice, this year we're delighted to add a new option, which you can choose to experience independently, or in conjunction with our ship-based expedition: a new, land-based journey (pg. 20). We'll travel from the cloud forest of Monteverde to the Caribbean, to the car-free town of Tortuguero, with its airstrip and roads carved from the jungle. We'll tour the canals of Tortuguero National Park on small boats searching for wildlife, and kayak for deeper exploration. Typically, visitors stay in lodges with rows of connected rooms. However, we have secured a prime location with private bungalows to add a gracious dimension to your Costa Rican experience.

Whatever you choose, you'll find it satisfyingly comprehensive, and well-curated by our smart, engaging staff. I hope you're inspired to join us soon.

All the best,

THE WONDER OF COSTA RICA & PANAMA EXPEDITION-STYLE

Costa Rica & Panama is a land of beauty and contrasts: the natural splendor of Costa Rica and the tropical wildness of Panama, plus the industrial-scale, clockwork engineering of the Panama Canal, a man-made marvel in constant use for nearly 100 years. Explore it all as part of a seamless narrative—and from a privileged perspective. Our expeditions draw from over 30 years of exploring this region. Expect early morning expedition landing craft forays—freshly roasted Costa Rican coffee in hand—or walks in the forest followed by a cocktail hour Recap in the ship or lodge’s lounge. Spending time among howler monkeys, communicative parrots, and delicate butterflies is always entertaining, often edifying. And our carefully honed itineraries and talented expedition teams enable discoveries that will live in your heart forever.

A PANAMA CANAL TRANSIT THAT IS DEEPER & RICHER

Crossing the Panama Canal by ship is a life-list must—and our Canal transit offers the best possible experience. We cross over two days, allowing us to see the workings of the locks by day—and also dramatically lit by night, an experience often cited by guests as a highlight of their expedition. Since we overnight in the Canal Zone on the lushly fringed Gatún Lake, we have a special arrangement to visit Barro Colorado Island, site of the Smithsonian Tropical Research Institute that has been in continuous operation since 1923. Hike the island's verdant rain forest trails with a Smithsonian guide, or explore its edges by expedition landing craft, and search for the primates studied by some of the world's top tropical scientists.

ENJOY A COMPLIMENTARY 2-DAY STAY IN PANAMA CITY OR FREE AIRFARE

Choose the complimentary two-day stay in Panama City to experience a docent tour of the Canal Expansion Observation Center, where you can see the construction site of the massive new Canal locks, one of the world's most important infrastructure projects. Discover, learn, and experience some of the cultural highpoints of burgeoning Panama City, as well. Join our staff to explore the acclaimed new Frank Gehry-designed Museum of Biodiversity, a 43,000-square foot spectacle of steel and concrete that is a tribute to the history of the isthmus and its wildlife. And we've made arrangements for a private dinner at the Atlantic and Pacific Co. restaurant where you can observe the daily operations of the Canal while dining. Or, if you prefer, choose free round-trip airfare from Miami instead of the 2-day extension.

LET US TAKE YOU DEEPER INTO BIODIVERSITY

Keel-billed toucan.

Costa Rica & Panama's rain forests, rivers, beaches, and undersea house incredible biodiversity. It's a land bridge framed by ocean and crowded with jungle that you'll discover on an authentic expedition. See troops of omnivorous, white-faced capuchin monkeys and even spider monkeys, the largest monkey in the New World. Venture up winding rain forest rivers aboard expedition landing craft and hear the howler

monkeys long before you see them amid the swaying treetops. Over 300 species of birds live here, and one of the advantages of traveling with our expedition team is their habitat knowledge. We know when wildlife at each site is most active, and we plan our explorations for maximum wildlife viewing. Photo enthusiasts of all skill levels benefit from our instructors and National Geographic photographers, who ensure your camera settings are just right, to capture a monkey floating through the canopy or an army of leafcutter ants marching across the forest floor.

TOOLS FOR EXPLORING NOW INCLUDE STAND UP PADDLEBOARDS

National Geographic Sea Lion is the perfect platform for exploring, self-sufficient, with a suite of cool tools aboard. A fleet of expedition landing craft let us venture far from tourist infrastructure to explore remote, jungle-framed beaches, and allow for quick, effortless disembarkation to take advantage of spontaneous encounters with dolphins or whales. Single and tandem kayaks are an ideal way to experience wildness, personally, at water level—circumnavigate a tiny uninhabited island, explore mangroves, or paddle along an idyllic beach. Video microscopes, hydrophones, and an underwater bow cam let us see the undersea life we'd otherwise miss. And now a fleet of paddleboards invite everyone, from rookies to pros, to get exercise by exploring a peaceful cove or if skilled, to head into the surf for more fun and exertion.

THE PRIVILEGE OF WILDNESS IN COMFORT & STYLE

Life aboard our newly renovated 62-guest expedition ship *National Geographic Sea Lion* is warm and welcoming. Refreshed cabins feature all new furnishings, windows, lighting, and more. Walls glow with vivid new photographs of wildlife and scenic vistas. And the lounge, handsomely re-designed and re-configured, graciously accommodates our nightly Recap—a convivial gathering of the expedition community to revisit the day's events and swap stories over hors d'oeuvres and cocktails. And meals are now doubly rewarding in our newly appointed dining room. Like the ship's connectedness to the outdoors, each meal is a window of sorts, reflecting the regional cuisine and sourced locally whenever possible. Enjoy line-caught fish, in ceviche and other dishes, superb Costa Rican coffee and more. Breakfast, lunch, and dinner aboard earn rave reviews from guests, as does the attentive care, service and expeditionary spirit of our hotel staff and chefs.

Upon arrival in San José, transfer by land to Herradura and embark our ship *National Geographic Sea Lion*. (D)

DAY 2: MANUEL ANTONIO NATIONAL PARK

Spend the morning in Manuel Antonio National Park, a UNESCO World Heritage site, where thick forests fringe white-sand beaches. Watch for three-toed sloths lazing among the branches, and spot monkeys and vividly colored birds. This afternoon follow the Pacific coastline south and stop for a refreshing swim or a hike. (B,L,D)

DAY 3: OSA PENINSULA

Anchor off the Osa Peninsula to see some of the most pristine lowland rain forest on the Pacific coast. In the environs of Corcovado National Park, swim in waterfall pools, optional horseback riding on the beach, or trek through the rain forest for a chance to see four species of monkeys—howler, spider, capuchin, and squirrel. (B,L,D)

Paddle boarding.

DAY 4: GOLFO DULCE

Enter the mangrove-fringed Golfo Dulce along the southwestern edge of Costa Rica. Visit Casa Orquídeas, a tropical paradise of ornamental palms, bromeliads, heliconias, and orchids, closed to the general public and reached by boat only. Keep your eye out for tanagers, parrots, and toucans. Later, explore the placid bay, ideal kayaking, stand up paddle boarding, expedition landing craft rides and swimming. (B,L,D)

DAY 5: COIBA NATIONAL PARK, PANAMA

The first stop in Panama this morning is at the remote Isla Coiba, one of the many islands of Coiba National Park, a UNESCO World Heritage site. Once a penal colony, the island has long been protected and accessible by special permit only. Among its many endemic species

Today, explore the tiny islets of the Gulf of Panama by expedition landing craft or kayak. Here we might spot frigatebirds, brown pelicans, neotropical cormorants, and brown boobies. Set sail for the Panama Canal this afternoon. Stretching more than 50 miles, the canal was a colossal engineering feat completed in 1914. It is still traversed by some 14,000 ships every year. This evening, continue through the complex lock system of the canal. (B,L,D)

TOP 10 REASONS TO EXPERIENCE COSTA RICA & PANAMA WITH LINDBLAD AND NATIONAL GEOGRAPHIC

1. EXPERIENCE MATTERS. With 20+ years in the region, we have had more time than anyone to learn how to deliver the most extraordinary expedition possible. We also own and operate the *National Geographic Sea Lion*, giving us experience and ownership that other operators here just don't have. You'll feel the difference.

2. MORE FLEXIBILITY, CHOICES, AND OPPORTUNITIES TO EXPLORE. We've put our experience to use in scheduling swimming, snorkeling and walking/hiking excursions at our favorite sites, at the best time of day, with flexibility built-in for those magical wildlife moments you won't want to miss. Kayak or take expedition landing craft to otherwise unreachable spots.

3. EXPLORE THE HIDDEN GEMS. Costa Rica and Panama offer wildness, enormous biodiversity, and beauty—but much of it is tucked away in secluded coasts or offshore in hard to reach locations. Approach beaches from the water, see a greater variety of natural wonders than any land-based excursion.

4. LEARN MORE FROM EXPERIENCED NATURALISTS. How many times has a stellar guide made all the difference in your travels? We've hand-picked a team of them, a core group of Costa Rican and Panamanian naturalists (1 for every 12 guests) so that

you'll learn more and make an incredible connection with these fascinating islands.

5. A LINDBLAD-NATIONAL GEOGRAPHIC CERTIFIED PHOTO INSTRUCTOR ON EVERY DEPARTURE. A specially trained naturalist, your photo instructor will provide assistance with your camera and instruction in elements of composition—to help you take your best photos ever. Certain departures are dedicated Photo Expeditions,

with National Geographic photographers aboard, for an in-depth photo experience.

6. UNIQUE PANAMA CANAL TRANSIT. The Panama Canal is so much more than a series of locks, and we take in this engineering marvel over two days instead of one. We explore the Canal Zone and, by special arrangement with the Smithsonian Tropical Research Institute, are permitted to overnight in the middle of our Panama Canal transit to explore Barro Colorado Nature Monument.

7. TOOLS FOR EXPLORATION. Our fleet of 5 expedition landing craft, 8 single kayaks, 6 paddleboards, and 12 double kayaks allow us to explore remote locations that would be otherwise impossible to reach. Video microscopes, hydrophones, and other tools give you the opportunity to have an unmatched, in-depth understanding and appreciation of all we'll discover.

8. WELLNESS INSPIRED BY NATURE. Our Wellness program, balances activities ashore and aboard. Our wellness specialist leads morning stretch class on the sundeck or on the beach. And complimenting the tonic of wildness, we offer massage therapy and body treatments in the LEXspa.

9. SEAMLESS TRANSITION TO A LAND-BASED EXPLORATION. Add an inland exploration of Costa Rica before or after your coastal expedition. Join our top tier expedition team in exploring Monteverde, Tortuguero, and Arenal.

10. EXCLUSIVE VIDEO CHRONICLE OF YOUR EXPEDITION. A video chronicler aboard every voyage captures all the moments of your unique expedition. Professionally shot in HD and edited during the voyage, it's available for purchase at disembarkation.

OUR COMMITMENT TO CONSERVATION AND STEWARDSHIP IN CENTRAL AMERICA

A core value of Lindblad Expeditions-National Geographic (LEX-NG) is to positively impact the areas we explore. The LEX-NG Fund does this by supporting conservation, research, education, and community development projects in regions we visit. In Central America, our current grantee, MarViva Foundation, addresses ocean conservation priorities and the sustainable use of coastal and marine resources along the Eastern Tropical Pacific. Together with our guests, we have donated nearly \$215,000 to MarViva. All funds go to local, community-based initiatives to support responsible fisheries.
