

Interview with an Organism

Imagine you could talk with one of the plants or animals you meet in your neighborhood. What would you like to know? Pick one animal or plant and complete these two pages about it.

ORGANISM	DATE

- Draw this organism with as much detail as you can.
- Label any observations you make.
- Include things like size, habitat, activities you observe.

Interview with an Organism

INTERVIEW QUESTIONS

What questions would you ask? The answers might be the animal or plant telling you a story, or maybe you can find the answers in a field guide. Start out with at least three questions and then try to answer them in the space below.

1.

2.

3.
