

EXPLORE WITH CONFIDENCE

HEALTH & SAFETY PROTOCOLS

As industry pioneers, we have been bringing travelers to the farthest reaches of the planet for over 50 years. We have decades of experience balancing adventure and safety, plus deep-rooted networks in the communities where we explore. That, along with our intimately sized ships and the remoteness of our voyages, makes us uniquely positioned for a successful re-entry to the wild.

Our dedicated **COVID-19 Global Policy** Team has consulted with top medical experts as well as U.S. and international authorities to ensure every detail has been carefully considered—from the moment you depart your local airport to the day we disembark. Based on these collective efforts, we've enhanced all of our health and safety protocols to best minimize risk aboard our small ships.*

All of our guidelines were developed under the expert counsel of:

- David B. Lorber, M.D., Lindblad Expeditions Chief Medical Officer
- Centers for Disease Control & Prevention (CDC)
- University of Washington
- Association of Arctic Expedition Cruise Operators' Clean Ships Healthy People
- Several external medical consultants including epidemiologists & infectious disease experts

Daily meetings keep our finger on the pulse of what's happening globally, and as the latest research and public health recommendations evolve, so will our policies. We will continue to update our protocols for all operating voyages in accordance with local, state, federal, and international regulations and guidelines.

SETTING A HIGHER STANDARD

We are working to make your voyage as safe as possible, while staying true to the unparalleled Lindblad experience our guests expect. Our protocols feature these unique elements:

- For voyages departing on or after May 11th, 2023, or later: Lindblad Expeditions will no longer require guests (regardless of age) to be fully vaccinated against COVID-19 at the time of their trip. Lindblad Expeditions highly recommends that all guests be fully vaccinated before they travel.
- From start to finish, travel exclusively with an expedition community of fellow guests and staff, all equally tested
- Fluid & flexible itineraries—We can deftly avoid ports and crowds as needed
- ACT CleanCoat™—Sail aboard the world's first self-disinfecting ships
- Upgraded HVAC systems utilizing a combination of Bipolar Ionization, maximized fresh air intake and advanced UVC light purification

WELCOME MAT APPROACH

Before greenlighting any destination, it must be open to tourism and we must meet or exceed all requirements for entry. Candid and transparent dialogue has been key to our Welcome Mat approach. In many cases, we have been on the frontline, blazing paths to help communities get their protocols in place.

PRE-DEPARTURE REQUIREMENTS

Prior to arriving, you will receive the most up-to-date guidelines specific to your ship and destination. All of our procedures meet or exceed local laws as well as all WHO & CDC guidelines.

To best ensure a successful voyage, we highly recommend that all guests take a pre-departure COVID-19 test within five days of the start of your expedition. We also continue to recommend that you follow all CDC travel guidelines, including masking and social distancing, prior to joining the group and exercise extra caution leading up to your voyage.

For voyages departing on or after May 11th, 2023, or later: Lindblad Expeditions will no longer require guests (regardless of age) to be fully vaccinated against COVID-19 at the time of their trip.* Lindblad Expeditions highly recommends that all guests be fully vaccinated before they travel.

*Please note: some destinations may require testing for entry and some programs may require boosters. Please visit the [Protocols by Destination](#) page for more information.

- We highly recommend that all guests take a pre-departure COVID-19 test within five days of the start of your expedition.
- Take reasonable measures to reduce the risk of exposure and follow all CDC guidelines five days prior to embarkation. We strongly recommend you do not arrive to the embarkation port prior to embarkation unless you are traveling with a Lindblad Expeditions extension. If you choose to arrive early, we kindly ask that you exercise caution, including masking and physical distancing and follow all CDC travel guidance.

Get all of your COVID-19 TESTING FAQs answered—from where to find a local testing site to what happens if you test positive. Visit us at:

WELCOME ABOARD

Once onboard, our goal is to provide the same exhilarating expedition experience our guests have come to know and love. We'll search for wildlife, explore with the expedition equipment, and revel in the wonders of the natural world. Much of our time is spent outdoors in fresh air and expansive landscapes ideal for social distancing; however, in certain cases, face coverings may be required in accordance with local regulations. Face coverings will be strongly recommended for all guests, unless required by local regulation.

Our goal is to stay healthy through proactive testing and thorough sanitation protocols. In the unlikely event of a confirmed case on board we have a precise plan of action. See our QUARANTINE PROTOCOL FAQs by visiting:

<https://www.expeditions.com/covid-protocol/frequently-asked-questions/>

PUBLIC SPACES

- Touch-free hand sanitizer dispensers are located around the ship and will be refilled regularly
- Upgraded HVAC systems bring in fresh external air and conditions it for your comfort utilizing a combination of bipolar ionization, maximized fresh air intake and advanced UVC light purification
- When possible our in-lounge presentations will be broadcast on all cabin and exterior speakers so guests may enjoy from alternate locations
- We have increased our shipboard supply of Personal Protective Equipment (PPE)

DINING

- Dining room will be thoroughly cleaned before and after every meal
- Increased sanitation protocols for cocktail hours and canapé servings
- All galley personnel will be required to wear gloves and face coverings while preparing and serving meals

WELLNESS PROGRAM

- Guest amenities like saunas, infinity pools, igloos, fitness centers, and yoga studios will have a limited time and capacity on relevant ships, where applicable
- Morning stretch classes will take place on exterior decks (weather permitting) and our wellness specialist will set up our sanitized mats 6 feet apart
- All voyages are staffed with an onboard doctor, and vessels now have increased medical capabilities and supplies on board

IN THE FIELD

- Boarding of Zodiacs will be closely monitored to reduce gatherings in the mudroom and the loading area
- To do our part protecting the communities we visit, we may modify some of our port calls and activities. Our Welcome Mat approach means PPE will be required for any shoreside staff that interacts with our guests and crew; we have worked with the local communities to ensure they have access to the supplies they need and are comfortable with our procedures

STAFF REQUIREMENTS

Anyone who has traveled with us before knows our expedition team will do whatever it takes to ensure exhilarating discoveries run smoothly and safely. And our small scale, plus high staff to guest ratios, allow us to provide extra attention to all our sanitation efforts. All staff, crew and third-party operators have received training on COVID-19 safety and sanitation protocols, and they are ready and eager to welcome you aboard.

TESTING & SAFETY PROTOCOLS

- Proof of full vaccination for COVID-19
- Testing prior to their arrival to the vessel
- Appropriate PPE must be worn in adherence with state and local regulations and guidance
- PPE is provided for all staff, crew, and third-party operators
- Enhanced PPE requirements for all cabin and common space cleaning
- Increased sanitation protocols for all shipboard spaces
- Enhanced visitor policy restricted to essential visits only

CLEANING PRODUCTS & PROTOCOLS

- The frequency of cleaning and sanitizing has been increased in all public spaces with an emphasis on high-touch surfaces including, but not limited to, elevator buttons, door handles, public bathrooms, and handrails
- Industry-leading sanitizing protocols are used to clean guest rooms, with particular attention paid to high-touch items including doors, furniture and faucet handles, telephones, light switches, temperature controls, and luggage racks
- Minimized contact with guests; hotel staff will offer to return at an alternate time for occupied rooms
- All bed linen and laundry are changed before and during each voyage and, as always, washed at a high temperature and in accordance with CDC guidelines
- Dirty linens will be bagged in the guest cabin to eliminate excess contact while being transported
- Increased sanitation protocols are in place for all back of house operations including, but not limited to, meal preparation, loading provisions, and storage of consumables
- Electrostatic sprayers used nightly will cover broader areas and ensure ships are fully sanitized for the next morning

ACT CLEANCOAT

Long before the advent of the novel coronavirus we trialed a new onboard cleaning and disinfecting system called ACT CleanCoat. It proved so effective, we rolled it out across the fleet, and today it offers an added layer of protection as we head back aboard. Read more about it at expeditions.com/purity.

OUR GOOD FAITH PLAN

DREAM TO YOUR HEART'S CONTENT. BOOK WITH CONFIDENCE.

We share your yearning for future experiences, and we also understand your need for peace of mind. See how we are protecting your financial investment in travel, too.

Disclaimer:

Daily meetings keep our finger on the pulse of what's happening globally, and as the latest research and public health recommendations evolve, so will our policies. We will continue to update our protocols for all operating voyages in accordance with local, state, federal, and international regulations and guidelines.

*There are certain unavoidable risks to passengers and property associated with expedition travel, including, among others, traveling with other people and illness or disease caused by exposure to bacteria, pathogens, and viruses, including the coronavirus that causes COVID-19, despite screening and testing and other steps taken by Lindblad Expeditions and passengers in response to these risks. In the event any passenger, crew, staff or others on the vessel were to test positive for COVID-19 and/or develop symptoms consistent with COVID-19, governmental authorities may require a 14-day or longer quarantine of all individuals on the vessel either on the vessel or elsewhere. Lindblad Expeditions shall not be liable for any claims, demands, and/or damages arising from or relating to any exposure to the coronavirus and/or the contraction of any illness or disease as a result of any such exposure, including but not limited to COVID-19, by passenger or any other person, including claims and damages due or allegedly due to inaccurate test results (including possible false negative test results) and/or the negligence of any Independent Contractor providing any medical screening or testing services, laboratory services, medical evaluation, diagnosis, treatment, advice, and/or recommendations, or any supplies and services for sanitation purposes.

*Lindblad Expeditions will also require all Crew to be vaccinated, with limited exception for individual Crew members who are unable to obtain vaccines due to limitations in their country of residence. All Crew will be required at all times to strictly comply with Lindblad Protocols which require, among other things, and restrictions interacting and engaging with anyone outside the Lindblad Expeditions voyage.
