WHAT WILL YOU GET FROM GOING TO ANTARCTICA?

ABOARD NATIONAL GEOGRAPHIC EXPLORER | 2016-2018
DEAR TRAVELER,

Antarctica is an unbelievable place that provides a deep, vast experience. And our 50 years of exploring there, a heritage we’re honoring this year in many ways, adds immeasurably to the quality of your experience.

Our staff is highly experienced, many have been exploring Antarctica for decades, and are deeply knowledgeable about the ice and its creatures. And the Global Perspectives guest speakers joining us are each, in their diverse ways, Antarctica experts, with fascinating information and insights to share. So, if Antarctica is on your radar, choosing to trust us with your time, intellectual curiosity and safety will prove very rewarding, I promise.

There’s no conversation about traveling to Antarctica that doesn’t include mention of the Drake Passage. If it’s something that concerns you, and I have heard from many, many people that it is of concern to them, I can simply tell you this: safety is not an issue. National Geographic Explorer is designed for these conditions. And the crew that guides her, under the expert direction of our Ice Master captains, are simply the best in the business—the most experienced, period.

While nobody can assure you that it will be calm, one thing our teams have noted in recent seasons—a consequence of changing climate conditions perhaps—is an increasing number of what they call “Drake Lake” crossings: unusually calm seas. I would advise you to assume, however, that the Drake Passage can and will live up to its reputation. But, two things to consider: it is the price of entry to the planet’s last truly wild place, and seeing Antarctica is one of the grandest privileges life affords. So, we do what’s necessary: pack the prescribed patches or medications in our carry-ons, and plan to read a good book. My personal preference is to use the time wisely; to lie down, read, catch up on sleep and be rested for the glories of the Antarctic Peninsula ahead—and the energy surge from the midnight sun.

I hope you will choose to celebrate our 50th with us and make this the year you venture forth on an Antarctic expedition.

All the best,

Sven-Olof Lindblad
TWO UNIVERSAL REASONS TO GO TO ANTARCTICA...

“I climbed high on the rocks and looked out. There was ice in every possible form, stretching forever. Glaciers, fast ice, icebergs, chunks of ice in the still water. The air was so cold and clean that even in the way distance, the ice was as vivid and sharp as if it were right in front of me. The immensity of it all, the peacefulness, the stillness and enormous silence, well, I could have sat there forever.”

— MARIA SEMPLE, WHERE'D YOU GO, BERNADETTE
“...penguins hopping across the inky ocean like fleas, then propelling themselves to safety on an iceberg. If I had to choose, that would be my favorite part, the way the penguins pop out of the water and onto land. Hardly anyone in the world gets to see any of this, which put pressure on me to remember it especially well, and try to find words for the magnificence.”

— MARIA SEMPLE, WHERE’D YOU GO, BERNADETTE
AND AS MANY PERSONAL ONES AS THERE ARE PEOPLE WHO GO
Aspirational, *de rigeur*, long-planned or somewhat spontaneous, why go to Antarctica? What brings you? What do you hope to get from the experience? And what will you take back home? No matter what your motives, or your take-away, whether it’s sensations, memories, words on paper, sketches, or hundreds of photos, it will be deep and lasting—as you’ll learn from the experiences of two different artists, and some well-known polar explorers…
In 2012 Maria Semple’s hilarious book, *Where’d You Go, Bernadette*, spent over a year on the *New York Times* best-seller list. The first of our staffers to read it was intrigued from the outset by the fictional daughter’s desire for a family trip to Antarctica. She said “little hairs stood up on the back of my neck” when the word ‘recap’ came up since that’s a daily ritual aboard ship, and a key word in the Lindblad Expeditions vocabulary. But she literally leapt out of her reading chair when she read this passage: “Every day, the scuba divers went down and videotaped the seafloor... Most of this stuff humans are seeing for the very first time,” since Lindblad Expeditions is the only company operating in Antarctica with undersea specialists who dive, capture video, and share the footage with guests. Sure enough, Maria Semple and her family had traveled with Lindblad Expeditions-National Geographic in December 2009.
Apparently, author Maria Semple got material for her book in Antarctica. And her fictional Branch family solves the real troubles that underlie the book’s humor there. Inevitably, it affected Maria and her family personally, as well. If she weren’t hard at work on her new book, we’d ask her all about it. As it is, we and readers nationwide, eagerly await her latest, *Today Will Be Different*, slated to hit bookstores in October 2016. In the meantime, if you haven’t read *Where’d You Go, Bernadette*, we highly recommend it.

Zaria Forman is an artist currently working and living in Brooklyn, New York, who draws inspiration from the natural world and depicts it in pristine and meticulously detailed drawings. She paints by hand—literally using her fingertips not brushes, to render marks in soft pastels. Traveling to far-flung corners of the globe affected by climate change, in order to source inspiration for her large-scale compositions, Zaria takes photographs and creates sketches, working from these and her memory after she returns to her studio.

Sven Lindblad recently commissioned a work and scheduled Zaria aboard National Geographic Explorer as artist-in-residence for the 2015 Antarctica, South Georgia and the Falkland Islands season. These images depict some of the many facets of Zaria’s experience in Antarctica, the photographs she took for inspiration, and the stunning work she created for Sven—Whale Bay, Antarctica No. 2—unveiled at the April 6th celebration of Lindblad Expeditions’ 50th Anniversary in Antarctica, and the installation of a plaque commemorating the pioneering achievement of Lars-Eric Lindblad, at The Explorers Club in Manhattan. Zaria’s next solo show is slated for 2017 at Watson-Wachter Seattle Gallery where more works inspired by Antarctica will appear.

TRAVEL WITH GENUINE POLAR ADVENTURERS, DRAWN BACK BY PASSION

Our 50th Anniversary in Antarctica creates an unparalleled opportunity for you to share the adventure with one of a roster of individuals synonymous with polar exploration, whether in science or adventure. Each of them responded to our invitation with his own personal reason to return to the ice—one or more of which may prove inspiring to you.

JAMES BALOG Jan. 26, 2017

“Thanks to Sven Lindblad and the National Geographic Explorer expedition team, we were able to place 6 time-lapse cameras on South Georgia Island and 9 on the Antarctic Peninsula in 2014. These cameras add another crucial polar region to our Extreme Ice Survey camera network, allowing us to monitor glacier activity in one of the most remote regions of Earth. I’m returning to Antarctica for practical reasons—to visit our EIS cameras and to talk to the monitoring team—and because I simply love the region. I welcome the opportunity to meet Lindblad guests, share our work with them, and talk about the science of how ice is changing and the implications for the future.”

—James Balog, Founder of the Extreme Ice Survey, author, filmmaker, climatologist
TIM JARVIS: Jan. 6 & 16, 2017

“Walking into Stromness in the failing light of 11th January meant that we achieved the ‘Shackleton double’ bringing with it a mix of emotions that are hard to describe. Certainly there is elation, relief and pride and a great sense of camaraderie amongst the team...That we have managed to emulate some of this story and get close to the kind of determination he needed to win through is truly humbling.”

—Tim Jarvis, adventurer, on re-creating Shackleton’s historic open ocean crossing in the documentary, Chasing Shackleton.

MIKE LIBECKI: Dec. 17 & 27, 2016

“There is nothing more important to me both as an explorer and a dad to experience the magic, power and beauty of our planet and wild nature. One of my favorite quotes is “don’t tell me how educated you are, tell me how much you have traveled.” The way I see it, it’s all about joyineering in the wild. And when going to remote corners of the globe there is mystery, and for me—no mystery, no adventure...”

—Mike Libecki, National Geographic Adventurer of the Year (2013), with over sixty successful expeditions and multiple first ascents

KEN TAYLOR: Feb. 5, 2017

“Ironically, changes in Antarctica, the world’s most remote place, will determine the fate of all the world’s coastal areas and hundreds of millions of people. The ice sheets were formed from snow that fell hundreds of thousands of years ago...and can be read like a stack of ancient weather reports, recording natural interactions between our atmosphere and climate...These issues have drawn me to Antarctica for 35 years of climate and glaciological field research. The Lindblad-National Geographic expeditions provide an opportunity for two-way discussions of these topics.”

—Dr. Kendrick “Ken” Taylor, Research Professor, Desert Research Institute, Reno Nevada, USA
Chief Scientist, WAIS Divide Ice Core Project

There is no clearer symbol of the everlasting connection between expedition and photography than the presence of a National Geographic photographer aboard every National Geographic Explorer voyage. And these top pros will greatly enhance your experience—with tips and advice in the moment that will vastly improve the quality of your images—whether you consider yourself a photographer or not.

MEET THE NATIONAL GEOGRAPHIC PHOTOGRAPHERS AT EXPEDITIONS.COM/ANTARCTICAPHOTOGRAPHERS
OUR RENOWNED TEAM IS THE BEST IN EXPEDITION TRAVEL

Interesting and engaging, thoroughly professional and excellent company, the team accompanying our Antarctica expeditions are tenured veterans of expedition travel and the ice. They understand the dangers of this last genuinely wild place, and its fascinations. Whether they’re safely piloting your Zodiac to fresh daily discoveries, conducting a presentation in the Lounge, or sharing a conversation with you over lunch or dinner, you can rely on them to add to your understanding and appreciation of this remarkable geography.

Here is a partial list of staff during our Antarctic season: clockwise from top left: expedition leader Lisa Kelley; naturalist Pete Puleston; naturalists and Lindblad-National Geographic certified photo instructors Michael Nolan and Adam Cropp; marine biologist and undersea specialist Alyssa Adler; naturalist Tom Ritchie.

ONE GUARANTEED TAKE-AWAY: OUR COMPLIMENTARY 50TH ANNIVERSARY EDITION PARKA

Yours to keep—our exclusive, vintage-inspired parka is the emblem of an authentic Antarctic expedition, and a meaningful piece of memorabilia. In 1966, Lars-Eric Lindblad led the first-ever citizen explorer expedition to Antarctica, effectively inventing the category of expedition travel. During our 50th Anniversary, we celebrate his vision, courage and conviction that informed travelers, who see the planet’s wonders with their own eyes, will be vital advocates for conservation. Based on historic expedition wear and Lars-Eric’s personal parka, our limited 50th Anniversary edition parka combines classic explorer style with high-tech fabrication for maximum comfort. It’s the ultimate souvenir of your Antarctic adventure, a keepsake you’ll wear with pride.

Above: This installation from the recent Lindblad 50th Anniversary celebration at The Explorers Club in New York City recreates Lars-Eric Lindblad’s ‘field office’ with archival postcards and his portable typewriter and reconnaissance notes. INTEGRAL TO YOUR ADVENTURE: NATIONAL GEOGRAPHIC EXPLORER

“I make bold to declare that the world will derive no benefit from it.” Captain James Cook wrote in 1773 when, crossing the Antarctic Circle and seeing deposits of rock in passing icebergs, he inferred the existence of the 7th continent. Time has proven him both right, and very wrong. From the perspective of material gain—minerals or fossil fuels extracted, territory won or lost—the world has, thankfully, derived no benefit from Antarctica. But the lucky few (relatively) who have experienced it have derived great benefit: the rewards of being there in person. And the best way to be there—actively enjoying and exploring daily—is aboard National Geographic Explorer. She is fully equipped to safely enable in-depth, highly personal explorations in the untrammeled vastness of the planet’s last genuinely wild place. In fact, Explorer’s undersea specialist will even take you where few have ever gone—into the fascinating Antarctic undersea.
Clockwise from upper left: Our exclusive kayak platform allows us to safely launch our kayak fleet in the world’s most remote and scenic locales; guests enjoy kayaking; our exclusive program sends undersea specialists into the deep to record video and reveal the surprising variety of life below the polar sea; our fleet of Zodiacs allow us to explore and land where no infrastructure exists.

Of all the historic expeditions, the one many of us are fond of re-imagining is Charcot’s. Unlike his professional explorer peers—Scott and Shackleton, to name the more famous—Jean-Baptiste Charcot and his men suffered no deprivations aboard the Pourquoi Pas? or any other ship under his command. Their winter in Antarctica included curated provisions, a good cook, French wines, cases of Mumm champagne, and ongoing evening entertainments, including readings from a novel-in-progress, music, and talks by the scientists aboard. Needless to say, life aboard Explorer will feature excellent food and wine, entertaining onboard talks, and sociable encounters with like-minded others. And more—the pleasure of discovering personal spaces within her public places; the thrill of walking aft to forward to hang out on the Bridge; or even how taking the air wonderfully counterpoints taking a sauna.
THE HUMAN COMMUNITY IN THAT REMOTE WILDNESS IS A BEAUTIFUL THING

Clockwise from upper left: Expansive windows and informal seating makes Explorer’s main dining room uniquely welcoming; the open air aft deck is a short walk from the Swedish sauna, and a tonic contrast; our traditional Swedish sauna sits adjacent to Explorer’s Wellness Center; the onboard community is convivial and inclusive; meals are made with fresh, local, and sustainably sourced ingredients whenever possible.
Above: An upper deck cabin with balcony; Right: the Observation Lounge sits high atop the ship to provide 360º views and an atmosphere perfect for reading, writing, or games from Scrabble to Bridge.

THE PRIVILEGE OF WILDERNESS, THE LUXURY OF COMFORT

Decorated in relaxing earth tones, National Geographic Explorer has 81 cabins, including 4 suites with balconies, 9 cabins with balconies, and 14 solo cabins, and all are inviting and rewarding. All cabins feature deluxe bedding, our signature feather duvets and thick terry robes. In addition, each has WiFi, flat-screen TV with movie programming, as well as channels broadcasting the live feed from our remote-controlled crow’s nest camera, and our electronic chart system. And all cabins are equipped with Ethernet connections, plugs for your own laptop, and phone or camera charger.

▶ View magnificent mountains, towering icebergs, and huge glaciers that make up the dramatic Antarctic landscape.
▶ Cruise aboard Zodiacs in search of wildlife.
▶ Kayak in protected waters, paddling amid ice as penguins swim nearby.
▶ On shore observe thousands of penguins, including gentoo, Adélie, and chinstrap.

EXPERIENCE & EXPERTISE

Our unparalleled team is key to an in-depth experience, and our generous expedition staff-to-guest ratio of 1:10 means more choice in activities, and more diverse personalities and interests you can gravitate to. An expedition leader, 8 naturalists/historians, a National Geographic photographer, a Lindblad-National Geographic certified photo instructor, undersea specialist, video chronicler, and a wellness specialist all contribute to your experience of the wonders. And a Global Perspectives guest speaker adds relevant insight.

Visit our website to read staff and guest speaker bios for this expedition.
DAYS 1 AND 2: U.S./BUENOS AIRES, ARGENTINA
Depart on an overnight flight to Buenos Aires. Settle into the Sofitel Buenos Aires Hotel (or similar) before seeing the city’s Beaux-Arts palaces and the famous balcony associated with Eva Perón. (Day 2: L)

DAY 3: FLY TO USHUAIA /EMBARK
Fly by private charter to Ushuaia, the southernmost city in the world. Join a catamaran cruise of the Beagle Channel before embarking our ship. (B,L,D)

DAY 4: AT SEA/DRAKE PASSAGE
While crossing the legendary Drake Passage, spot albatross and other seabirds that glide alongside the ship. (B,L,D)

DAYS 5–10: EXPLORING ANTARCTICA
With long hours of daylight at this time of year, we have ample opportunity to explore the Antarctic Peninsula and the surrounding islands. In keeping with the nature of an expedition, the schedule is flexible so that we can take advantage of the unexpected—watching whales at play off the bow, taking an after-dinner Zodiac cruise, or heading out on an extra landing. We anticipate making Zodiac landings each day to hike, kayak among the ice floes, and experience close encounters with wildlife. You’ll learn how climate change affects the penguin populations, and how best to capture images of penguins from a National Geographic photographer. Back aboard, our undersea specialist may present video from that day’s dive or show rare images taken up to 1,000 feet below the surface using our ROV. Our expert staff will craft an expedition where you will learn, see and experience more. (B,L,D)

DAYS 11 AND 12: AT SEA
Enjoy the ship’s amenities as the Antarctic coast disappears from view. Round the southernmost tip of South America, and see the meeting of the Atlantic and Pacific Oceans. Celebrate your voyage at a farewell dinner on board. (B,L,D)

DAYS 13 AND 14: DISEMBARK
USHUAIA, ARGENTINA/BUENOS AIRES/U.S.
Disembark in Ushuaia. Fly by charter to Buenos Aires and connect with your overnight flight home. (Day 13: B,L)

GEAR UP—BE READY

Given the authentic nature of our expeditions—gear matters. We get out there, using our Zodiacs to make landfall where no infrastructure exists, and often they’re wet landings. We visit rookeries, hike and otherwise actively explore. Our Gear Up partner, Ship to Shore Traveler, has been outfitting travelers since 1984, and their Antarctica package outfits you for everything you’ll encounter. And their handy boot rental program helps keeps your baggage weight down!

Travel Protection premiums are non-refundable once plan is purchased.

Smoking Policy: Smoking is allowed only in designated outdoor areas.

Responsibility and Other Terms & Conditions: Certain other provisions concerning, among other things, limitations of Lindblad Expeditions’ and the National Geographic Society’s liability for loss of property, injury, illness or death during the voyage will be provided to all guests on the ship’s ticket sent prior to departure, and are also available on our website at www.expeditions.com/terms, or upon request. By registering for a trip, the guest agrees to all such terms and conditions.

Note: Itineraries and prices listed in this brochure are valid as of publication date, and are subject to change. Under normal conditions, the total expedition cost is guaranteed at the time of booking. However, the published price is determined far in advance of initial departure on the basis of then-existing projections of fuel and other costs. In the event we determine that current costs create an unsustainable financial model, including but not limited to increases in the price of fuel, currency fluctuations, increases in government taxes or levies, or increased security costs, we reserve the right to pass on these costs to you, to cover such unexpected increases. We will always provide a transparent accounting of the reason for such an increase in costs.

$750 will be rewarded in the form of a Lindblad Expeditions Travel Certificate.

This cancellation policy applies to expeditions as well as all other additional services. The effective date of a cancellation will be the date on which your cancellation notice is received. Note: Airline cancellation policies vary by carrier, as well as the type of fare used to issue your ticket.

Any revisions you make within the cancellation penalty period, such as departure date or choice of voyage, are subject to cancellation fees.

Cancellation policy for certain longer voyages and Holiday departures may vary due to high demand for these voyages. Our Group cancellation policies are listed in the Terms and Conditions section of our website, or you may call us for details. We stress the importance of purchasing a travel protection plan to protect yourself from fees in the event you need to cancel your reservation.

United States Tour Operators Association
$1 Million Travelers Assistance Program

Lindblad Expeditions, as an Active Member of USTOA, is required to post $1 Million with USTOA to be used to reimburse, in accordance with the terms and conditions of the USTOA $1 Million Travelers Assistance Program, the advance payments of Lindblad Expeditions customers in the unlikely event of Lindblad Expeditions bankruptcy, insolvency or cessation of business. Further, you should understand that the $1 Million posted by Lindblad Expeditions may be sufficient to provide only a partial recovery of the advance payments received by Lindblad Expeditions. More details of the USTOA Travelers Assistance Program may be obtained by writing to USTOA at 345 Seventh Avenue, Suite 1801, New York, New York 10001, or by email to information@ustoa.com or by visiting their website at www.USTOA.com.
