ARCTIC SVALBARD & NORWAY’S FJORDS

WIN-WIN
CHOICE OF 2 ITINERARIES
TO POLAR BEAR VALHALLA

JUST ADDED:
FREE AIR
ON JULY 15 NORWAY
Lindblad Expeditions and National Geographic have joined forces to further inspire the world through expedition travel. Our collaboration in exploration, research, technology and conservation will provide extraordinary travel experiences and disseminate geographic knowledge around the globe.
DEAR TRAVELER,

When I first saw the photograph on the cover, I literally laughed out loud. It seemed almost as if the young bear in the middle was part of a welcoming committee.

Reality is, though, that polar bears so often seem curious about us and regularly approach our ships to ‘check us out.’ Nothing of our size has directly threatened them, or perhaps, they may be attracted to smells. Or it may be something else entirely we may never fully understand.

In any case, Arctic Svalbard is a unique place to encounter these majestic animals. The Marine Mammal Protection Act of 1972 banned the hunting of polar bears (except among Alaskan natives, who are still allowed to hunt the bears. The practice also remains legal in Canada) and their populations have grown considerably since. But it’s also true that we’ve been exploring here for over 30 years, so we’ve learned their behavior, understand how they tend to move in the pack ice, and consequently, know where to find them—to deliver the thrill for you.

Clearly, finding and observing polar bears in their wild habitat is the pinnacle experience of exploring the Arctic, but if you join us you will find so many other utterly fascinating things—a waterfall gushing from a great glacier terminus, throngs of seabirds, blankets of wildflowers. This, and more, can be seen on our focused Svalbard expedition. If you have time, however, you should consider combining Svalbard with a sojourn up the Norwegian coast. It’s a startling contrast below the Arctic Circle—with lovely villages, stunning fjords and plenty of time to engage with the hearty folk who inhabit this rugged landscape.

Either way, it’s both an exciting and peaceful way to spend part of your summer.

All the best,

Sven-Olof Lindblad
POLAR BEARS & ICE

The Arctic is all about radical simplicity—elemental rock sculpted by millennial forces, the carpeting tundra, the impassive massiveness of tidewater glaciers, and lordly bears stalking the lace-like vastness of the pack ice.

Timeless and essential, wild and beautiful, the Arctic we’ve explored for decades is mythic—providing the thrill of pure discovery in pure wildness. And the two itineraries featured here deliver the best of the Arctic on the proverbial silver platter—featuring the ‘capital’ of Arctic nature: Svalbard.

Svalbard is one of the few places on Earth where the polar bear can be reliably found in its natural environment. And spotting a polar bear in the wild, a life-list must for many, is a chance for all ages to experience the Arctic on a visceral level.

In over 30 years of Arctic exploration, our ace spotters have honed their skills; they know how to find isbjorn, the ice bear. And our Captains know how to approach the animals—respectfully—for optimal sightings. Join us and you can rely on experiencing the joy—of seeing an apex predator, of observing a beautiful animal secure in its native habitat, and of the elegiac ache at the prospect of what looms, given melting ice.

2 ARCTIC EXPEDITIONS

Our 11-day Ice Bears aboard National Geographic Explorer gives you everything you want from a sojourn in the Arctic. Add six more days, and our Arctic Norway aboard National Geographic Orion will give you everything you want and more—literally. Both offer the pure wildness of Svalbard and the prospect of bears. The Orion itinerary adds Norway’s jaw-dropping fjords and picturesque coastal villages to enrich your experience of this inspiring geography.
For people who love the natural world, seeing the fjords of Norway is a travel must. Little on the planet surpasses the achievements of glaciers in sculpting these stunning forms. And in addition to lyrical landscapes, this coastal region of Norway offers a radiant profusion of birds, wildflowers, reindeer, even the silvery dart of an Arctic fox passing us on a hike. There’s the human factor, too: the people and their homes in the tiny towns and picturesque villages that animate these vistas in such delightful ways. The glacier-carved coastline is 1,100 miles long (almost as long as Australia’s) and we’ll explore nearly the full length on our 17-day expedition. Venturing off the beaten track plied by cruise ships, we’ll explore the rarer western fjords, threading the narrows and nosing National Geographic Orion’s bow up to glacier termini. Hike, walk, kayak through stunning scenery, then make for the wilder wilds of Svalbard to see polar bears, ice and Arctic wildlife. (The July 15, 2016 departure travels in reverse).

Clockwise from top left: Visit a charming fishing village tucked away in the Lofoten Islands; the sheer walls of Trollfjord allow our captain to approach close enough for us to pluck leaves from trees; learn the benefit of slow shutter speeds when shooting waterfalls; kayaking Hellemoboten’s scenic shoreline.

This voyage is undertaken in the spirit of discovery, and our travel in the archipelago is exploratory by design. In a region ruled not by humans but by polar bears, we let nature guide our course. Svalbard lies north of the Arctic Circle, where the summer midnight sun never sets. With our fully stabilized ice-class expedition ship, we are able to probe the ice in search of wildlife; our exact day-to-day itinerary remains flexible, depending on local ice and weather conditions. Zodiacs and kayaks take us closer to experience the region’s geologic features and the wildlife that flourishes during the summer months. With our National Geographic photographer and a seasoned naturalist staff, venture to the foot of vast tidewater glaciers, kayak among sparkling icebergs, and explore fjords that split the coastline. Hike through miniature gardens blooming on the tundra; and search the edge of the pack ice for polar bears, walruses, seals, reindeer, and arctic foxes. Svalbard is one of the few places on Earth where the polar bear can be reliably found in its natural environment. (B,L,D)

**DAY 10: LONGYEARBYEN/ DISEMBARK/OSLO**

EXPERIENCE & EXPERTISE

We hit a huge milestone in 2016: 50 years of authentic expedition travel. In 1966 Lars-Eric Lindblad took the 1st-ever citizen explorers to Antarctica, effectively creating the category of expedition travel. He went on to mount pioneering expeditions to the Galápagos, Seychelles, Amazon and more. And his farsighted ideas about the value of travel and informed travelers to conservation have earned him distinction as the ‘father’ of eco-tourism. This year we celebrate our heritage by doing what we do best—exploring the Arctic in our signature exploratory, flexible expedition style.

In late evening, the midnight sun finds a fishing village as brightly lit as in daytime.
**DAYS 1 AND 2: U.S./BERGEN, NORWAY (VIA COPENHAGEN)/EMBARK**
Fly overnight to the Hanseatic town of Bergen, the gateway to the fjordlands. Stroll Bryggen Wharf, a UNESCO World Heritage site, before embarkation. (Day 2: L,D)

**DAY 3: NORDFJORD**
Today we enter the “gateway to the glaciers”, Nordfjord where we are transported via coach along Loen Valley’s jagged mountains and turquoise-colored lake. Hike groomed trails to Briksdal Glacier. (B,L,D)

**DAY 4: SMØLA**
After over 30 years of exploring this extraordinary coastline, we still find new and exciting places to visit. Explore the scenic little island of Smøla, where we have been specially invited by the local residents. (B,L,D)

**DAYS 5 AND 6: EXPLORING THE FJORDS OF NORWAY**
Amid the rugged, mountainous islands and steep-walled fjords we explore a variety of landings: Zodiac along vertical rock faces, paddle a kayak in a deep fjord surrounded by cascading waterfalls, or hike with our naturalists. Over the years, we’ve discovered special places, including Mefjord, a narrow channel surrounded by high granite cliffs. (B,L,D)

**DAY 7: LOFOTEN ISLANDS**
The Lofoten Archipelago is an enchanting area of picturesque villages by the sea, backed with jagged peaks. By Zodiac, view Atlantic puffins, razorbills and guillemots. Go ashore at the island of Værøy, and be on deck as we cruise into dramatic Trollfjord, one of Norway’s most famous fjords. (B,L,D)

**DAY 8: TYSFJORDEN**
Enter the long Tysfjorden, where only a few small villages cling to rocky shores. Explore the u-shaped valley of Hellemobotn by Zodiac, kayak or on foot. (B,L,D)

**DAY 9: TROMSØ**
Tromsø is known as the “gateway to the Arctic” because so many Arctic expeditions originated here. Visit the Polar Museum and the Arctic Cathedral, where the unique architecture evokes icebergs. (B,L,D)

**DAY 10: BEAR ISLAND**
Zodiac around mist-shrouded Bear Island, populated by thousands of fulmars, kittiwakes, guillemots and gulls. (B,L,D)

**DAYS 11-15: EXPLORING SVALBARD**
Arctic Svalbard is a place of deep fjords, snowcapped mountains, and massive ice sheets. Our focus is the search for walruses, seals, reindeer, arctic foxes and polar bears. Nowhere can the polar bear be seen more reliably in its natural environment than here. With our stabilized, ice-class ship, a flexible itinerary, and years of experience here, we are able to venture to the foot of vast tidewater glaciers, kayak among sparkling icebergs, hike the tundra, and explore fjords that split the coastline. (B,L,D)

**DAY 16: LONGYEARBYEN/DISEMBARK/OSLO**
Disembark in Longyearbyen and visit the Svalbard Art Gallery and Museum before boarding our charter flight to Oslo. Check into the SAS Radisson Blu Airport Hotel. (B,L)

**DAY 17: OSLO/U.S. (B)**
