DEAR TRAVELER,

There are so many possibilities to consider when planning your family travel—and there is so much family to consider, too. When my two youngest kids, a girl and a boy three years apart, were school age, it was like having two different species in the house, with precious little connecting their interests. Add parents and extended family to the equation, and you're up to three or more different species!

Wildness is a great equalizer, allowing old and young to share experiences with equal joy. In this era of devices and seemingly limitless connectivity, it's become far too easy for family members to spend more time with their phones and tablets than each other. Expedition travel, with its mix of fresh daily sights, wildlife, undersea wonders, and activities for every age and fitness level, is the perfect antidote—to disconnect your family from the screens, the headphones and the tech-noise, and re-connect you with each other.

In addition to a superb experience, we also offer families a priceless commodity: ease. As a parent I know that there's much to be said for seamless and hassle-free. Our team provides that: every detail—from flights to food to gear—is taken care of, so all you have to do is relax and enjoy the adventure.

On behalf of our expedition teams worldwide, I hope you will choose to join us.

Best regards,

A handwritten signature in blue ink, appearing to read 'Sven-Olof Lindblad'. The signature is fluid and cursive, with a large initial 'S'.

Sven-Olof Lindblad

P.S.

Please know that although we're featuring the expeditions— Galapagos, Alaska and Baja— best adapted for family travel, families are welcome on all of our expeditions, and will find the experience richly rewarding whether you head to polar, temperate, or solar regions. And the same group and kids' savings apply.

EXPERIENCE THE LINDBLAD-NATIONAL GEOGRAPHIC DIFFERENCE CELEBRATING 50 YEARS OF EXPEDITION TRAVEL

In 1966 Lars-Eric Lindblad took the first-ever citizen explorers to Antarctica, effectively inventing expedition travel, and we have been exploring the planet ever since. We have introduced hundreds of families to the wonders of wild, remote places; and we have learned what it means for families to experience these unique places together. Carefully crafted to make the most of your time and interest, our expeditions also allow flexibility and spontaneity—Breaching whales to starboard! Dolphins at the bow! Migrating sea turtles, let's snorkel!—to be part of the experience. Rely on us to provide authentic, hands-on fun that rewards you with magic, meaning and shared memories for life.

Snorkeling with sea lions in Baja is a thrill.

Zodiac cruising provides up-close interactions with marine wildlife.

Pristine Galápagos beaches inspire joy.

Travel + Leisure named us the **#1 Family Friendly Small-ship Cruise Line** for **four consecutive years**. The fact that we go to remarkable geographies and see and do engaging things are major reasons to choose us. But what will surprise and delight you, is how much being aboard an expedition ship—with the safe autonomy and sense of adventure this offers kids—will add to your whole family's experience. You'll see kids gain confidence, and discover hidden talents, while having the time of their lives.

Brown bear, Southeast Alaska.

The wild world presents non-stop photo ops. And when you explore them with us, you can take ultimate advantage—thanks to our exclusive Expedition Photography program. You'll have a Lindblad Expeditions-National Geographic certified photo instructor onboard and at your service. Skilled photo instructors, trained by top National Geographic photographers, and veteran naturalists, will provide tips or instruction, and will help you better understand wildlife behavior so you can better anticipate and capture great moments. And kids take to our photography program like proverbial ducks to water—learning, experimenting, and documenting their experience in imaginative and insightful ways. Photography is highly shareable—photographers display shots in recap presentations—and everyone gets caught up in the fun. So, whether you use a smartphone, point-and-shoot, or a DSLR, or haven't tried photography, count on going home with great shots.

A SMART KIDS PROGRAM + FAMILY ACTIVITIES TO SHARE

Your family will see, learn and do more by exploring the Galápagos, Baja, or Alaska with experts who know those regions best. Kids on our expeditions can count on these engaging activities:

See what happens when kids disconnect from tech and have direct contact with wildlife & wonders. With no screens to intervene, you'll re-discover each other on the voyage, too

✓ Get certified to drive

Kids learn to drive an expedition landing craft and earn a “certificate of achievement.” And, get kid-friendly menu options, stargazing, a scavenger hunt, nautical knot-tying, and a special pizza & movie night, too

✓ Learn journal keeping

Keep an expedition journal, to observe and preserve all the new, enriching experiences; or paint watercolors using glacial ice to link art & science

✓ Observe nature through the lens

Take a photo workshop with a Lindblad-National Geographic certified photo instructor, using smart phones, DSLRs, or point & shoot cameras

✓ Learn ship navigation

Visit the Bridge together to watch the Captain and crew navigate, and learn about the navigational instruments

✓ Learn hands-on science

Whether learning about glaciers by making ice cream sundaes, or using the video microscope to see life in miniature, kids get lasting value from hands-on nature lessons

✓ Experience giving back

Kids can contribute in Galápagos by donating their favorite book to the Tomás de Berlanga School; or learn to identify humpback and killer whale flukes in Alaska and submit findings to researchers

EXPERIENCE & EXPERTISE

50
YEARS
EXPERIENCE

In the nearly 50 years we've been exploring Galápagos, we've introduced generations of travelers to its magic and mystery. We're committed to Galápagos; and have raised millions, along with our guests, for its conservation. Since our 1967 beginning in Galápagos we've operated ships based there year-round, staffed with an expedition leader, a team of naturalists, a Lindblad-National Geographic certified photo instructor, undersea specialist, wellness specialist and video chronicler to contribute to your experience. And to maximize opportunities for families, we add an extra naturalist to our Galápagos summer expeditions—ensuring focus on enhancing each kid's experience.

Visit expeditions.com/galapagos to read staff bios for this expedition.

DAY 1: U.S./GUAYAQUIL, ECUADOR
Depart for Guayaquil and upon arrival, transfer to the Hotel Hilton Colón.

DAY 2: GUAYAQUIL/GALÁPAGOS/ EMBARK
This morning, fly to the Galápagos Islands and board *National Geographic Endeavour/ Endeavour II** or *National Geographic Islander*. After lunch, we begin our exploration of the islands and their diverse wildlife. (B,L,D)

DAYS 3–8: EXPLORING THE GALÁPAGOS
Listed below is a sample of the islands we may visit during our expedition.* (B,L,D Daily)

ISLA BARTOLOMÉ
Walk to the top of Bartolomé's volcanic cone for a stunning view of Pinnacle Rock and the surrounding golden sand beaches. After the hike, immerse yourself among schools of multicolored reef fish. You may also have the opportunity to swim with Galápagos penguins.

ISLA SANTIAGO
Follow a path along a series of tide pools and underwater caverns in search of Galápagos fur seals, marine iguanas, sea lions, shore birds and Sally Lightfoot crabs.

ISLA SANTA CRUZ
Santa Cruz is home to the Charles Darwin Research station; learn about the science done here and visit the neighboring captive breeding program for endangered species of Galápagos giant tortoises, by their partners in conservation, the Galápagos National Park Service. Later, travel into the highlands where wild tortoises forage, to observe and photograph these tortoises in the wild.

ISLA ISABELA
Explore the largest island in the group, home to enormous marine iguanas, abundant sea turtles, the only species of flightless cormorant in the world, and the only penguin species that inhabits the equator. Cruise by Zodiac and hike against the backdrop of giant shield volcanoes, and snorkel in the cool, rich waters that often draw whales and dolphins to the area.

ISLA FLOREANA
At Champion Islet, snorkel among sea lions, or

peer into an underwater world in a glass-bottom boat while keeping an eye out for the endangered Floreana mockingbird. Those interested can visit Post Office Bay, founded by whalers in the 18th century—if you see a letter addressed to someone who lives near you, the tradition is to deliver it by hand.

Families enjoy quality time in the surf.

ISLA FERNANDINA
Discover the marine iguana haven of Punta Espinoza as we hike over lava flows. Galápagos hawks, sea lion nurseries and the rare Galápagos flightless cormorant will be found as we explore this island.

ISLA ESPAÑOLA
See swallow-tailed gulls, Española mockingbirds, boobies, and, seasonally, waved albatross on this birder's paradise. Walk among vivid green and red marine iguanas and unique lava lizards, and observe sea lions up close on a pristine white-sand beach.

By special permit, we explore Glacier Bay, a not-to-be-missed gem of Alaska. See glaciers that end abruptly at the water’s edge and observe them “calving”—tons of ice crashing into the sea—accompanied by an exhilaratingly thunderous sound. Wilderness abounds—mountain goats and brown bears patrol the shore; harbor seals, Steller sea lions and puffins live in these icy waters. A native Tlingit interpreter joins us to share the lore and legend of the area. We will also be joined by a National Park Service Ranger. (B,L,D)

The per person advance payment amount varies by program, and is outlined in our brochures, as well as on our website. Payment is accepted by Visa, MasterCard, American Express, Discover, or by check. Receipt of your initial payment indicates your acceptance of our complete Terms and Conditions. We require written notice at the time of reservation for any physical condition, diet, or treatment requiring special attention. Once your reservation is confirmed, we urge you to use your personalized online account for important information to help you prepare for your voyage. Managing your documents online will facilitate fast and accurate communication, and allow you to provide us with pertinent details we require, in order to complete your reservation. Your online account gives you access to your Expedition Guide, which includes valuable information specific to your voyage. You can also use your online account to make easy payments, view recommended flights and reading material, packing list, and so much more.

Final Payment: Due no later than 90 days prior to departures, depending on the expedition.

Note: Itineraries and prices listed in this brochure are valid as of publication date, and are subject to change. Under normal conditions, the total expedition cost is guaranteed at the time of booking. However, the

published price is determined far in advance of initial departure on the basis of then-existing projections of fuel and other costs. In the event we determine that current costs create an unsustainable financial model, including but not limited to increases in the price of fuel, currency fluctuations, increases in government taxes or levies, or increased security costs, we reserve the right to pass on these costs to you, to cover such unexpected increases. We will always provide a transparent accounting of the reason for such an increase in costs.

A State Department travel warning for Mexico is currently in effect (<http://travel.state.gov>). The area of concern noted in the warning is not near the region we visit on this itinerary. We expect to operate these expeditions as planned, but will continue to closely monitor events in the country.

TRAVEL PLANNING WITH A DIFFERENCE

Half of travel planning is learning what you don't know and generating questions. The other half is getting answers.

When you call **1.800.EXPEDITION**, you can ask for any one of our Expedition Specialists who have been on our Family Expeditions. They are full members of the Lindblad Expeditions team—students of the natural world and born explorers, not trained call center telemarketers.

SO WHY NOT TAKE ADVANTAGE OF THEIR EXPERTISE? Don't hesitate to call with your questions—they're equipped to provide answers based on their knowledge and personal experience.

Ask them about Family Expeditions, how we explore, our ships, our itineraries, and more. We think you'll find the conversation rewarding.
