ICE FEVER: IT'S A THING

EDIFYING. EXHILARATING. AND DEEPLY MOVING.

The Antarctic ice sheet is the most distinctive feature of Earth as seen from space—every astronaut’s account mentions it. And the ice is what makes every Antarctic explorer vow to return. There’s a whole glossary of ice words to learn—macro-scale terms like fast ice, leads, and growlers, to more granular terms like brash and bergy bits. Ice is visually stunning, and nearly kaleidoscopic in its diversity of form. But what’s exhilarating to discover is the ice’s voice. Sitting in a stilled kayak, listening to the subtle sibilance of thousand-year-old gases releasing from a bobbing field of floating bergy bits is like eavesdropping on Earth’s whispered secrets. Once you’ve experienced it, you’ll never forget it.

“The single best whale encounter I’ve ever had. Over the course of two rounds of Zodiac cruises a group of very friendly humpbacks circled our Zodiac in a clear display of curiosity. It was a highlight of the trip for many of the guests that were nearby including myself.”

— ERIC GUTH
Naturalist/Certified Photo Instructor

ULTIMATE POLAR EXPEDITION SHIPS

EXPLORING ANTARCTICA SHOULD BE A PINNACLE EVENT IN a traveler's life. We're committed to doing whatever it takes to make your experience the most memorable ever—and our expedition ships are key. Top-tier Ice Class vessels, each is purpose-designed and built, incorporating 55+ years of polar experience, for exploring the ice in comfort and safety. The captains of the Lindblad-National Geographic fleet are extraordinary mariners, with decades of ice navigation expertise. Our expedition teams are hand-picked for their knowledge of polar natural history and their ice skills. Equipped with state-of-the-art tools, our ships are unparalleled bases for explorations. And the logistics on each are superb, designed to swiftly and efficiently get you off ship on your choice of thrilling daily forays.

The captains of the Lindblad-National Geographic fleet are extraordinary mariners. For example, Leif Skog, Lindblad VP of Marine Operations and Master of the *National Geographic Explorer*, has been navigating vessels in Antarctica nearly every season since 1979 on over 200 polar voyages. As past Chairman of the IAATO Marine Committee (Int'l Assn. of Antarctica Tour Operators), he was a primary architect of the IAATO Emergency Contingency Plan for all vessels operating in Antarctica.

NEW TWIN SHIPS: National Geographic Endurance and National Geographic Resolution.

National Geographic Explorer

“ After breakfast, we zipped to shore at Brown Bluff, a fascinating geologic area where we found hundreds of penguins. This is a colony which supported 100,000 pairs of Adélie penguins earlier in the season, but is now reaching the season’s end. There were a handful of Adélie chicks and many gentoo chicks testing the waters and exercising their wings. The beach shallows were kiddy pools filled with fluffy chicks sticking their heads into the water, wading in, and being pushed around by small incoming waves. We enjoyed watching their antics for a couple of hours, as well as finding a solitary fur seal, and taking a hike onto the edge of a glacier.”

EXPLORE YOUR WAY EACH DAY

OUR ANTARCTIC ITINERARIES ARE CRAFTED BY EXPLORERS, and every itinerary point features opportunities to head out and discover, in one dynamic way or another. The freedom of choice means opportunities to choose how active you'll be, whether kayaking among bergy bits, hiking up a ridge to a vista overlooking a cove, or instead taking a short stroll along the shore where penguins are gathered. Our seamless shore-landing operation, perfected over decades, gets you quickly ashore to share in exploring. Your freedom of choice extends to which members of our naturalist staff you choose to spend time with aboard ship. With a diverse team with broad expertise, you may choose to join your photo instructor at the deck rail to get tips on landscape photography, or stand next to an expert birder with binoculars in hand, or join one of our knowledgeable historians to learn about the golden age of Antarctic exploration in the region we're exploring. You can begin each day with a morning stretch class, or a pre-breakfast coffee at the 24/7 coffee/tea stations on the ship. Revisit the day at evening Recap, while enjoying drinks with your traveling companions, or by relaxing solo in one of the ship's many nooks and crannies where you can read or journal.

“I’m a highly active person, so always appreciate every chance to get off ship. And in the early season, when our captains can “garage” the ship in the frozen sea ice, everyone can descend directly for a once-in-a-lifetime walk, snowshoe, or cross-country ski trek. When the conditions are just right, it’s a thrilling and incredibly memorable way to experience this vast landscape. It also shows that there is never a dull moment, or a ‘lesser’ time to go, during our Antarctic season.”

— SVEN LINDBLAD,
CEO & Founder, Lindblad Expeditions

OUR TEAM IS ACE AT DOING WHAT IT TAKES

ROALD AMUNDSEN WINNING THE RACE TO THE NORTH POLE. JEAN-BAPTISTE CHARCOT charting the Antarctic peninsula. Neither of them have anything on you—you're a natural born Antarctic explorer, too. But sometimes even the most intrepid of adventurers need a guide—and that's where we come in. Our team has the knowledge and passion for Antarctica that will kindle yours. They will do whatever it takes, from manning spotting scopes to search for whales; lingering on deck to shoot photos of passing petrels; to finding and exploring uncharted coves and waterways when conditions enable it.

“A Zodiac foray in search of leopard seals with a polar expert had us searching the brash ice that the seals gravitate to. We navigated from ice floe to floe. Sure enough, there it was! We slowly approached the ice while he radioed to other Zodiacs in the area so they could see too. Will never forget that serpentine smile. (The leopard seal, not the staff.)”

DISCOVER THE SELDOM-SEEN POLAR UNDERSEA

BECAUSE THE UNDERSEA IS VITAL TO YOUR UNDERSTANDING OF Antarctica, we've committed the technology and personnel resources to offer what no other travel company in Antarctica does—an exploration of the vivid and surprising world beneath our ship.

During the voyage, an undersea specialist will don special polar diving gear to explore and shoot video of the Antarctic marine environment and its otherworldly creatures. You'll get to see this amazing world on TV screens in the warm comfort of the lounge, with our undersea specialist as your guide. You'll see what lies beneath the ice and discover strange and wonderful lifeforms. In some cases, our specialists have photographed specimens not known to scientists. See the life lived on Antarctica's ice, and the marine life found deep beneath the surface.

“ It was the actual anniversary date of Lars-Eric Lindblad’s first expedition to Antarctica in 1966, and we’d all had a champagne toast in the lounge in his honor. After dinner, a few people noticed the sky becoming pink, then orange...and before I knew it, I was on the stern watching the fieriest sunset of my life—at 11:00 p.m.—the entire sky flooded with reds, pinks, yellows, and oranges across the horizon, illuminating the peaks. Even long-time naturalists like Pete Puleston and Bud Lehnhausen said they’d never seen a sunset like that in Antarctica.”

GET YOUR BEST SHOTS WITH A NATIONAL GEOGRAPHIC PHOTOGRAPHER

NATIONAL GEOGRAPHIC EXPLORER, NATIONAL GEOGRAPHIC Endurance, and National Geographic Resolution are the only expedition ships exploring Antarctica with National Geographic photographers aboard on every departure. These photographers, many with significant careers to their credit, have inspired countless professional and amateur photographers, and accompany our ships to inspire and assist you. And, they are flanked by Lindblad-National Geographic certified photo instructors, who are also skilled naturalists, to assist you with your camera settings, the basics of composition, observation, and more to equip you with skills.

Now, every guest—from iPhone camera users to semi-pro shooters—can stand side-by-side with top photographers, pick up tips in the field, and take great photos. And you’ll want to—Antarctica provides a photo op a minute and a once-in-a-lifetime experience to capture. So, no worries, you don’t have to consider yourself a photographer to participate in the fun and rewards of “aim & create.” You’ll return home with your best photos ever, and a lifelong skill.

EXPLORE ANTARCTICA WITH US: BENEFIT FROM 55+ YEARS OF INSIDE KNOW-HOW

ANTARCTICA MAY BE AT THE END OF THE EARTH, BUT WE'VE been bringing guests here for decades—safely sharing all the wonders of this vast land and sea. Join us to experience the thrill of crunching through the sea ice aboard our fleet of three state-of-the-art expedition ships. Venture into channels and coves framed by towering peaks. Watch whales play off the bow; glide around enormous icebergs in Zodiacs; photograph penguin colonies with a National Geographic photographer; hike, kayak, and even possibly cross-country ski in complete tranquility. And, get a front seat on the dashing history of the Heroic Age of Exploration. Armed with a flexible itinerary that allows us to go where conditions are best and wildlife is most active, we'll experience all the splendor of Antarctica. Choose to make the most of the time you'll invest in traveling, and choose our brand new *Antarctica and Patagonia* itinerary to discover two iconic 'end of the earth' geographies on one sweeping 20-day itinerary.

EXPEDITION HIGHLIGHTS

Explore the world's last great wilderness with a team of top naturalists well versed in Antarctica • Sail past magnificent mountains and huge glaciers • Cruise aboard sturdy Zodiacs among ice bergs and in search of wildlife • Kayak in protected waters, as penguins swim nearby • On shore, observe thousands of penguins: gentoo, Adélie, and chinstrap • Discover the unexpectedly dazzling undersea • Early November departures on all ships offer the possibility to cross-country ski and snowshoe—on the frozen sea ice • Or add Patagonia to your adventure: iconic Torre del Paines, the grandeur of the Chilean fjords, and the breathtaking natural wonders of some of Chile's most impressive National Parks.

From/To Buenos Aires or Santiago

WARM WELCOME

Begin in warm Buenos Aires or Santiago, where you'll see city highlights as well as lesser-known gems before flying by charter air to Ushuaia.

Ushuaia

SOUTHERNMOST CITY

Embark your ship in Ushuaia and transit the famed Beagle Channel, named after the ship Darwin sailed, before venturing south.

RITE OF PASSAGE

Crossing the legendary Drake Passage is a milestone in any explorer's journal. Spot and photograph albatross and other seabirds that glide alongside the ship.

PENGUINS GALORE

Step ashore to thousands of chinstrap and gentoo penguins. You'll learn how climate change affects the penguin populations, and how best to capture images of penguins from a National Geographic photographer.

DIVE DEEP

Your undersea specialist may deploy an ROV up to depths of 1,000 feet to shoot video and images of places never before seen.

Drake Passage

PARK & SKI

Conditions permitting, on early November departures, our Captain may "park" the ship in the fast ice. We'll lower the gangway for a once-in-a-lifetime walk over the sea ice, and there may be the possibility to cross country ski or snowshoe.

Antarctic Sound

Weddell Sea

Lemaire Channel

Paradise Bay

WE BRAKE FOR WHALES

Spotters on the Bridge keep a constant watch for whales, and when they're spotted you can be certain that our Captain will position us for the best sighting.

GET CLOSE

Walk, kayak, Zodiac cruise, and actively explore the seventh continent to linger among penguin colonies or hike to a vista overlooking a peaceful cove.

EARTH'S END

Explore the Antarctic Peninsula over several days with a flexible schedule allowing us to go where wildlife is most active and conditions best.

GET CLOSE

Zodiac cruise and kayak among Antarctica's sculptural bergs, hike beaches among thousands of penguins, and see the incredible undersea via ROV over several days exploring.

Massive king penguin colonies, as splendid a sight as this world offers, can be found in a special place: South Georgia. A remote island in the Southern Ocean some 750 nautical miles from Antarctica, South Georgia is the new frontier—where savvy travelers with a passion for wild places can experience the genuine sovereignty and majesty of a last wild kingdom.

A large colony of King penguins is shown, with many individuals in the foreground and background. The penguins have dark grey heads and necks with bright orange-yellow patches. They are all looking upwards, with their heads tilted back, suggesting they are observing something in the sky. The background is a dense, out-of-focus crowd of similar penguins.

EXPERIENCE THE
GREATEST WILDLIFE
SPECTACLE ON EARTH

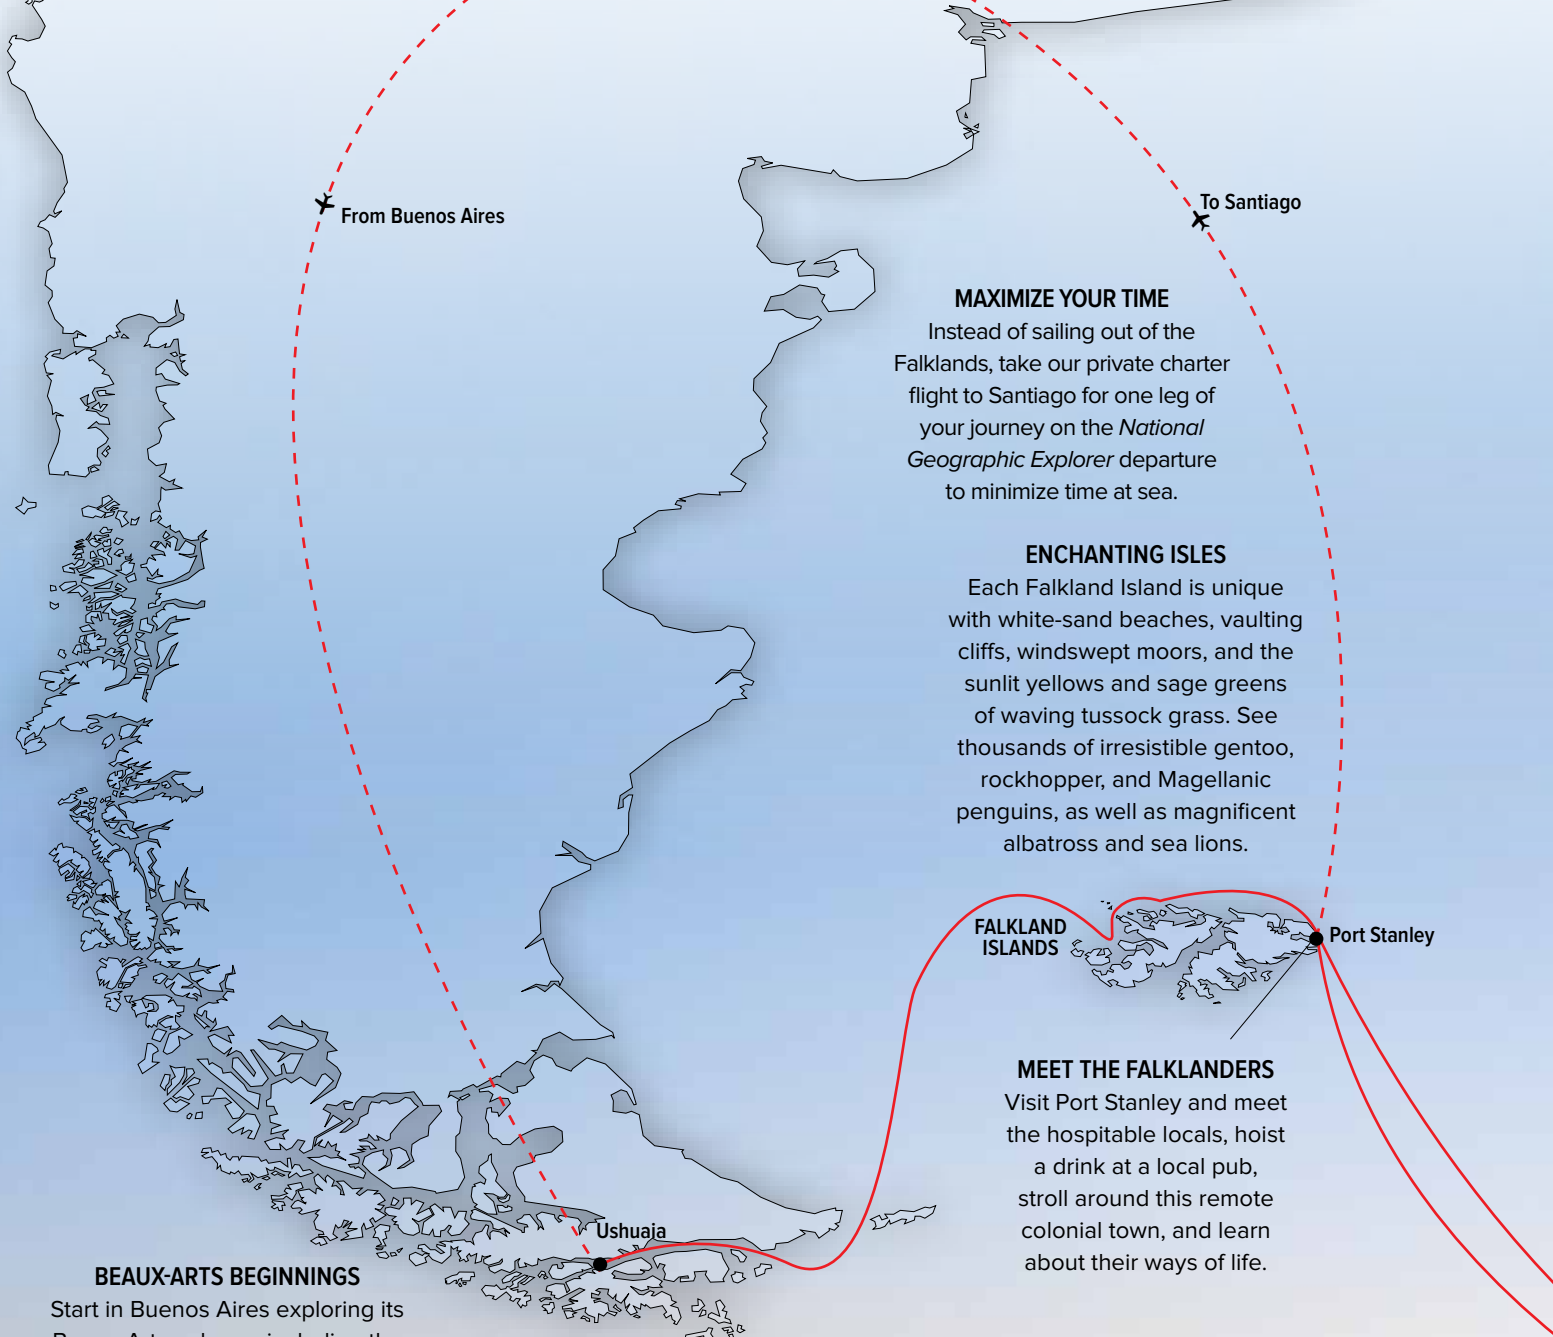

IT IS AN ASTONISHING SIGHT—100,000+ KING PENGUINS IN ONE rookery. The sheer biomass, the ruckus, the sensory overload will stop you in your tracks. But the profusion of life in South Georgia goes so far beyond this one spectacle that it boggles the mind and sends your spirit soaring. Dense colonies of macaroni and gentoo penguins, lolling fur seals, and 8,000-pound elephant seals. In the Falklands, find cliffs teeming with black-browed albatross—nearly a third of all birds of this species nest here. Discover the fascinating human history in Shackleton’s heroics, the whaling lore of Stromness in South Georgia, and in the remote settlements of the Falklands.

Choose from three expeditions: the ultimate trifecta expedition to *Antarctica, South Georgia and the Falklands*. Or, if you’ve already explored *Antarctica*, consider two adventurous, deeply rewarding options. Our *South Georgia & the Falklands* voyage goes to the heart of this epic wildlife spectacle. And our *Wild Coasts* itinerary takes you from the Argentine annual breeding grounds of the southern right whale to South Georgia and the Falklands.

EXPEDITION HIGHLIGHTS

Experience the best of these distinct regions • See Antarctica’s wildlife and epic ice • Observe 100,000+ stately king penguins on South Georgia • Get close to magnificent albatross in the Falklands and see Magellanic penguins peeking from their burrows • Kayak amid curious fur seals and Zodiac cruise in quiet bays • Trace the story of Sir Ernest Shackleton’s fateful 1914 journey • Add Argentina’s wild coast and Uruguay’s gaucho culture to your Southern Ocean experience.

SOUTH GEORGIA

TAKE YOUR PLACE AMONG
ANTARCTICA'S BOLDEST EXPLORERS

EMBARK ON A NEW VOYAGE MADE POSSIBLE BY THE extreme ice capabilities of our new expedition ship, *National Geographic Endurance*. Discover the seventh continent as few ever have or ever will. Venture into the epic landscapes of remote West Antarctica where we are sure to set foot on ice few other humans have. See the prolific wildlife and impressive ice shelf of the Ross Sea region. By special permit, explore Macquarie Island and other Subantarctic Islands of New Zealand and Australia, all World Heritage sites. Explore among thousands of seals and millions of penguins, including huge colonies of king and royal penguins, which are endemic to Macquarie Island. This is wildness and wildlife at its finest, seen before only by the likes of Scott, Ross, Amundsen, and Shackleton.

EXPEDITION HIGHLIGHTS

Venture deep into the ice aboard the ultimate polar ship, *National Geographic Endurance*, and explore where few others have been before • See the big tabular icebergs of the Antarctic Peninsula, remote West Antarctica, and the spectacular Ross Ice Shelf • Explore small seldom-seen Subantarctic Islands of New Zealand and Australia that are havens for wildlife • Paddle a kayak in pristine bays, and Zodiac cruise amid the icebergs • Observe royal penguins, endemic to Macquarie Island, gentoo and southern rockhopper penguins, and 100,000 pairs of king penguins on a single beach.

From Buenos Aires

PRIVATE AIR

Fly to Ushuaia, the southernmost city in the world. Enjoy lunch on a catamaran cruise of the Beagle Channel before embarking.

BEAUX-ARTS BEGINNINGS

Fly overnight to Buenos Aires and settle into the Alvear Icon Hotel before seeing the city's Beaux-Arts palaces and balcony made famous by Eva Perón.

Drake Passage

SHIP PARKING ONLY

Your captain will look for spots to "park" the ship in the pack ice, conditions permitting, to experience the thrill of disembarking onto a frozen sea for ice walks.

GET ACTIVE

With 24 hours of daylight, we'll explore the Antarctic Peninsula and take advantage of the unexpected—veering off course to watch whales or enjoying an after-dinner Zodiac cruise. Hike, explore by Zodiac or kayak, and experience amazing encounters with wildlife.

ANTARCTIC PENINSULA

GO FARTHER

Marvel at the Ross Ice Shelf, the world's largest, roughly the size of France. Hike across small remote islands and spot colonies of Adélie penguins, plus Zodiac and kayak.

West Antarctica

ANTARCTICA

SELDOM-SEEN ISLES

Explore Macquarie Island, a part of Australia, with thousands of seals, 500,000 pairs of endemic royal penguins, and over 100,000 pairs of king penguins on one beach.

Ross Sea

BIRD CENTRAL

By special permission, land at New Zealand's Subantarctic Islands over three days—each of them a World Heritage site, including the rocky Snares Islands, home to over a million seabird pairs, and the endemic Snares crested penguin.

STRANGE & WILD

At Enderby Island, search for rare yellow-eyed penguins and New Zealand sea lions, and explore the larger Auckland Islands, with rich flora, prolific birdlife, and a fascinating human history.

FINAL LEG

Disembark in Dunedin, known for its Victorian and Edwardian architecture. Fly to Auckland for the night, before going to the airport for flights home.

Dunedin, N.Z.

LUXURY OF COMFORT IN A CAPITAL OF WILDNESS

OUR POLAR SHIPS, THE FINEST BASECAMPS AN EXPLORER

could want, allow us to freely roam. They are equipped with a fleet of Zodiacs and kayaks for up-close and personal explorations. The Bridge is welcoming, inviting you to spend time with the Captain and officers, watching the calm business of navigation unfold. Our expedition ships are also equipped for living well. The lounge, dining room, and other public spaces contribute to the *esprit de corps* that is a hallmark of our expeditions. A library serves those who want to learn more about the region or curl up with a best seller. The observation lounge is a fine spot to gather for a light meal or to watch petrels soar overhead as we sail. And a fully stocked bar is a place to relax or engage with fellow travelers. The wellness center, gym, sauna, and stretching sessions with our wellness specialist boost the tonic of wildness nature provides. And cosseting cabins, outfitted with our signature linens and feather duvets provide the perfect ending to active days.

“Before lunch, we offered the chance for a “Polar Plunge.” This was not really a swim, because those that did it pretty much jumped into the water and then got back out as fast as humanly possible. Amazingly, about 90 of our guests partook in this crazy activity.”

— TOM RITCHIE, Naturalist,
Daily Expedition Report
National Geographic Explorer

A photograph of fresh produce, including green onions and red radishes, arranged on a blue surface. The green onions are bundled together with white roots and long green stalks. The red radishes are also bundled, showing their bright red, round roots and green leafy tops. The text "DINING IS ANOTHER REWARDING EXPEDITION EXPERIENCE" is overlaid in white, uppercase letters across the middle of the image.

DINING IS ANOTHER REWARDING
EXPEDITION EXPERIENCE

ALL THE LINDBLAD-NATIONAL GEOGRAPHIC POLAR SHIPS SHARE MATCHING appetites for adventure and dining excellence. Each ship's Executive Chef brings menu concepts to life daily, collectively designed by our Director of Hotel Operations, Ana Esteves. Count on them to keep your expeditionary spirit well fed, so to speak, and for daily diversity and flavors from varying regions. Our pioneering culinary program is rooted in sustainability. We obtain fresh vegetables from a local grower in the Falklands, and fresh lamb from an island rancher. Our goal is for our guests to experience the geography through the food served wherever possible. Dining is part of the expedition experience and no assigned seating makes for easy mingling with congenial fellow guests and expedition staffers.

NATIONAL GEOGRAPHIC EXPLORER

CAPACITY: 148 guests in 81 outside cabins.

REGISTRY: Bahamas. **OVERALL LENGTH:** 367 feet.

National Geographic Explorer is a state-of-the-art expedition ship. It is a fully stabilized, ice-class vessel, with an ice-reinforced hull, enabling it to navigate polar passages while providing exceptional comfort. It carries kayaks and a fleet of Zodiac landing craft. An undersea specialist operates a remotely operated vehicle (ROV) and sophisticated video equipment, extending access to the underwater world.

PUBLIC AREAS: Bistro bar; chart room; restaurant; global gallery; library; lounge with full service bar and state-of-the-art facilities for films, slideshows and presentations; mudroom with lockers for expedition gear, and observation lounge. Our “open Bridge” provides guests an opportunity to meet our officers and Captain and learn about navigation.

MEALS: Served in single seatings with unassigned tables for an informal atmosphere and easy mingling. Menu is international with local flair.

CABINS: All cabins face outside with windows or portholes, private facilities and climate controls. Some cabins have balconies. Cabins are equipped with Ethernet and Wi-Fi connections and USB ports for mobile devices.

EXPEDITION EQUIPMENT: Zodiac landing craft, kayaks, Remotely Operated Vehicle (ROV), hydrophone, splash-cam, underwater video camera, aerial remote controlled camera and video microscope.

SPECIAL FEATURES: A full-time doctor, undersea specialist, National Geographic photographer, Lindblad-National Geographic certified photo instructor and video chronicler, internet café and laundry.

WELLNESS: The vessel is staffed by a wellness specialist and features a glass-enclosed fitness center, outdoor stretching area, a LEXspa treatment room and sauna.

SELF-DISINFECTING SHIPS: Lindblad Expeditions became the first self-disinfecting fleet with the rollout of the ACT CleanCoat™ system in 2019. This photocatalytic cleaning process activates when illuminated, continuously breaking down unwanted microbes such as bacteria, viruses, mold, and airborne allergens. The positive environmental impacts of this non-toxic, chemical-free system are many: less plastic in the supply chain and waste stream, and more than one million gallons of water saved annually. The system lowers our carbon footprint and creates a cleaner, healthier shipboard environment for guests and crew alike.

NATIONAL GEOGRAPHIC ENDURANCE & NATIONAL GEOGRAPHIC RESOLUTION

CAPACITY: 126 guests in 69 outside cabins.

REGISTRY: Bahamas. **OVERALL LENGTH:** 406 feet.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships, purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow® is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.

PUBLIC AREAS: Two restaurants, a chef's table for small group dining, observation lounge with bar, gym, wellness area, infinity-style outdoor hot tubs, library, main lounge with full service bar, 24-hour beverage, state-of-the-art facilities for films, slideshows and presentations, and a photo workshop area; plus, an expedition base with lockers for expedition gear, and an "open Bridge" for access to our Captain, officers and the art of navigation.

MEALS: Two restaurants, featuring local, sustainable choices and unassigned seating for flexible, inclusive dining; plus a Chef's table for intimate, small group dining. Main restaurant has 270° views, and the Observation deck restaurant features lighter, made-to-order fare.

CABINS: All cabins face outside with large windows, private facilities and climate controls. 53 cabins have balconies. Cabins are

equipped with expedition command centers with tablets and USB/mobile device docking, TVs, Wi-Fi connections, and hair dryers.

EXPEDITION TOOLS: Zodiac landing craft, kayaks, snowshoes, cross-country skis, undersea specialist operating a remotely Operated Vehicle (ROV) and underwater video camera for unique access to polar marine world, hydrophone, aerial remote-controlled camera and video microscope.

SPECIAL FEATURES: A full-time doctor, undersea specialist, National Geographic photographer, Lindblad-National Geographic certified photo instructor and video chronicler, an internet cafe and laundry.

WELLNESS: The vessel is staffed by our wellness specialists and features a glass-enclosed yoga studio, gym, treatment rooms and spa relax area, and high and low-heat saunas with ocean views.

CONSIDERING ANTARCTICA?

There are 6 important questions to ask before you decide with whom to book your Antarctic adventure. This guide answers them all:

1. What kind of ship is best?
2. What safety features are vital?
3. What is the travel operator's experience?
4. How active will your Antarctic experience be?
5. What does the travel operator offer in terms of staff and onboard experts?
6. What is their environmental record & commitment to conservation?

Antarctica is the wildest, most remote, and least predictable geography on earth. However, because many cruise lines, sensing a business opportunity, have begun to offer voyages to Antarctica, many travelers may be lulled into a false sense that Antarctica is now somehow "tame."

This guidebook was designed to give travelers information they can use to sort out the options. It will help you make the choice that will best ensure your safety and the quality of your experience.

RESERVATION INFORMATION

Terms & Conditions: For complete terms and conditions please visit expeditions.com/terms

Pricing: For best pricing book early. Prices quoted in this brochure are valid as of the time of printing, are subject to modification based on select departures and availability at time of booking, and are not guaranteed until booking and required deposit is made. Under normal conditions, the total expedition price is guaranteed at the time of booking. However, our expedition pricing is determined far in advance of initial departure on the basis of then-existing projections of fuel and other costs. In the event of increases in those costs including, but not limited to, increases in the price of fuel, currency fluctuations, increases in government taxes or levies, or increased security costs, we reserve the right to adjust the price of your expedition or add a surcharge to cover such unexpected increases. We will always provide an explanation of the reason for increase in pricing. Visit expeditions.com or call for the most up-to-date pricing.

Pricing Includes: All accommodations aboard ship or in hotels per itinerary or similar; all meals and beverages aboard ship (except certain super-premium brands of alcohol); meals on land as indicated, accompanied by nonalcoholic beverages; shore excursions; sightseeing and entrance fees; special access permits; transfers to and from group flights; use of kayaks; use of cross-country skis or snowshoes (where applicable); tips (including gratuities to ship's crew); taxes and service charges; services of a ship physician and services of our expedition staff. Unused services or items included in our programs are non-refundable.

Not Included: Air transportation, charter airfare (where applicable) extensions, passport, visa, immigration fees, meals not indicated, travel protection plan, items of a personal nature, such as internet access, voyage chronicle, and laundry.

Airfare: For all programs, airfare is an additional cost unless otherwise indicated. We will gladly assist in making your air arrangements for a \$50 per person service fee.

Reservations: To reserve your place, an advance payment is required at the time of reservation. Receipt of advance payment indicates your acceptance of the terms and conditions. Visit expeditions.com/terms for complete details.

Final Payment: Final payment is due in full 120 days prior to departure. Payment schedules may vary for certain longer voyages due to high demand for these voyages. We reserve the right to cancel your reservation if payment has not been received by final payment due date.

Travel Protection Plan: We strongly recommend that you take advantage of our Travel Protection Plan. This plan offers comprehensive coverage to protect you from cancellation fees, costs incurred due to trip delays/interruption, medical assistance, and damaged or lost baggage, and provides medical assistance and evacuation during your travels. Our Travel Protection Plan is available for U.S. residents only and may be purchased any time prior to final payment due date. If you are not satisfied for any reason, you may return your plan

within 10 days after purchase. Your premium will be refunded if canceled within 10 days, provided you have not already departed on the trip or filed a claim. When so returned, the coverage under the plan is void from the original date of purchase.

Responsibility and Other Terms & Conditions: Certain provisions concerning, among other things, limitations of Lindblad Expeditions' and National Geographic Expeditions' (a division of National Geographic Partners, LLC) liability for loss of property, injury, illness, or death during the voyage will be provided to all guests on the ship's ticket sent prior to departure, and are also available on our website at expeditions.com/terms, or upon request. By registering for a trip, the guest agrees to all such terms and conditions.

Note: Itineraries and prices listed in this brochure are as of publication date and are subject to change.

Smoking and Vaping Policy: Smoking and Vaping are allowed only in designated outdoor areas.
