NATIONAL  
GEOGRAPHIC™

DEAR EXPLORER,

There are 8 countries that have territory in the Arctic—defined as land and sea north of 66° 33'N latitude. And between May and September 2019 our two polar vessels, *National Geographic Explorer* and *National Geographic Orion* will explore all of the sea-bordering countries. Only Finland and Sweden have landlocked Arctic terrain.

Just to give some scale to this vast wilderness:

- ▶ Population approx. 1.35 people per square mile in the Arctic
- ▶ Population approx. 74,000 people per square mile in Manhattan

Using the Manhattan comparison really puts the Arctic into perspective: it's literally the wildest place on Earth to still have some form of permanent human settlement.

What it has in abundance there, however, is non-human life. Plankton-rich seas, great colonies of seabirds, bears—polar bears in some parts and brown bears in others—seven different species of pinnipeds including the great walrus; musk oxen; reindeer in some areas; and whales of many different kinds.

There are indigenous people who merit our interest and deserve our admiration, as they conduct their lives in what is, for about half the year, the harshest of possible environments. There are the great mountain ranges and icebergs, some the size of 12 government buildings. And of course, there is the ice—the sea ice which provides hunting grounds for polar bears and pupping grounds for seals.

The Arctic is an AWESOME part of our planet, which ideally, every human being should, at some point in their lives, experience. There are a multitude of different itineraries on the following pages, ranging from 11 days to 22 days, that provide opportunities to do so. Each is very different in character and focus; all are compelling. I am especially excited about our new **Fabled Lands of the North** itinerary (page 22) beginning in 2020. This wide-ranging voyage takes us back to some thrilling parts of the high Arctic we've not explored for quite some time—in particular, in and around southern Baffin Island. Here, we'll push the exploration boundaries, seeking out uncharted excitement such as hauled out walrus or hiking the tundra in search of arctic fox and other wildlife.

Choosing one of these itineraries is not an easy task, but I hope as you flip the pages, you'll find everything you need. In addition, our Expedition Specialists are standing by to field your questions and get you accurate, useful answers. Enjoy the quest!

All the best,

## THE RUSSIAN ARCTIC

### THE ALEUTIAN ISLANDS

Mountains, marine mammals, and an unmatched experience for fans of WWII history.

### KAMCHATKA PENINSULA

Incredible opportunities to observe brown bears, Steller's sea eagles, Koryak reindeer herders, and for the geology aficionados—volcanoes.

**COMMANDER ISLANDS** Ranking high in the annals of exploration, explorer Vitus Bering—for whom a Strait and a Sea are named—is buried here.

**WRANGEL ISLAND** A UNESCO World Heritage site located well above the Arctic Circle, Wrangel Island is a haven for wildlife. Find walrus, polar bears, arctic foxes and incredible bird life, in a stunning pristine landscape.

**BERING SEA** The summer feeding ground for gray whales, these waters also offer the chance to sight multiple whale species; walrus, fur seals, Steller sea lions, and sea bird colonies, including puffins in spectacular numbers. Only navigable four months of the year, we explore it in prime time.

# SVALBARD

A Norwegian archipelago between mainland Norway and the North Pole. One of the world's northernmost inhabited areas, it's known for its rugged, remote terrain of glaciers and frozen tundra sheltering polar bears, Svalbard reindeer and arctic foxes. The northern lights are visible during winter, and summer brings the "midnight sun"—sunlight 24 hours a day.

## THE PLACE ON EARTH WHERE WE MOST RELIABLY FIND BEARS

*"You're hoping for a bear encounter, but nothing is guaranteed. Then to be face-to-face with it, having this intimacy with an animal that you've heard so much about—it just felt deeply personal."* — Guest, June 2017

We explore the Svalbard archipelago to observe one of the most magisterial sights on Earth: a polar bear, in its element, ranging over the pack ice, hunting for seals. Our ace spotters will do whatever it takes—from manning the spotting scopes round the clock, to disturbing your sleep with a gentle 'bear alert'—to make sure you don't miss the thrill of seeing a lone male, or a mother with cubs, gaze up at you with curiosity and no fear at all. And, they will also skillfully guide your gaze to the walrus, reindeer, arctic foxes, whales, gyrfalcons, and 60 species of birds that fill the sea, sky and land with exuberant life in our splendid season in the Arctic.

Choose to focus on Svalbard, or range into more adventurous regions on our *Svalbard, Iceland & Greenland's East Coast* expedition.

## MAKING YOUR SVALBARD-NORWAY EXPERIENCE AS RICH AS POSSIBLE

*Kayak in the Norwegian fjords.*

*“There are few places on Earth where Spring is more exuberant, and more fleeting, than here. We see all the species in the air, on land and sea, feeding on the abundance of the season.”* —Tom Ritchie, Naturalist

Discover the region with a veteran expedition leader, an assistant expedition leader, and a team of naturalists well-versed in the region’s flora and fauna. A National Geographic photographer, a Lindblad-National Geographic certified photo instructor, and a video chronicler aboard will ensure you go home with amazing shots, plus a DVD that captures the story of your voyage. And, a wellness specialist is aboard to enhance the tonic effects of exploring the Arctic.

## TRAVEL WITH NATIONAL GEOGRAPHIC PHOTOGRAPHERS

### DAYS 4–9: EXPLORING SVALBARD

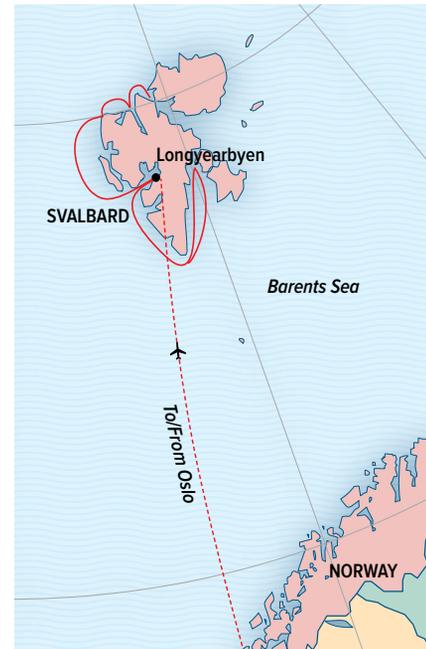

This voyage is undertaken in the spirit of

discovery, and our travel in the archipelago is exploratory by design. In a region ruled not by humans but by polar bears, we let nature guide our course. Svalbard lies north of the Arctic Circle, where the summer midnight sun never sets. With our fully stabilized ice-class expedition ship, we are able to probe the ice in search of wildlife; our exact day-to-day itinerary remains flexible, depending on local ice and weather conditions. Zodiacs and kayaks take us closer to experience the region's geologic features and the wildlife that flourishes during the summer months. With our National Geographic photographer and a seasoned naturalist staff, venture to the foot of vast tidewater glaciers, kayak among sparkling icebergs, and explore fjords that split the coastline. Hike through miniature gardens blooming on the tundra; search the edge of the pack ice for polar bears, walrus and seals; and spot reindeer and arctic foxes on land. Svalbard is one of the best places on the planet to observe majestic polar bears in their natural habitat. (B,L,D)

### DAY 10: LONGYEARBYEN/DISEMBARK/ OSLO

Disembark in Longyearbyen take a short bus ride to Camp Barentz in the nearby Advent Valley for a taste of Arctic culture. Enjoy refreshments and meet some of the friendly, sled dogs that reside at camp. Fly back to Oslo and overnight at the SAS Radisson Blu Airport Hotel. (B,L)

**JUL. 3–15: EXPLORING SVALBARD, GREENLAND & ICELAND**

Our itinerary, in keeping with the nature of an expedition, will be a thoughtfully considered framework based on our experience in this dynamic Arctic region. We'll take advantage of our 'human resources'—our experienced captain, expedition leader and naturalists—as well as our technological resources. Armed with the latest satellite imagery, we'll chart where the ice is impenetrable, and where there are leads guiding us to exciting discoveries. We have an ice-strengthened hull and forward-searching sonar, plus agile Zodiacs and kayaks, allowing us to make forays among the ice. The undersea specialist will deploy the ROV and cameras, bringing back imagery few, if any, have ever seen. And with unforgettable days in the ice, and two professional photographers on board, you'll get your best photos ever. Svalbard is a place of deep fjords, snowcapped mountains, massive ice sheets, and one of the best places on the planet to observe majestic

polar bears in their natural habitat. Venture to the foot of vast tidewater glaciers, kayak among sparkling icebergs, hike the tundra, and explore fjords that split the coastline.

Svalbard's wonders are a prelude to discoveries on unknown shores, following the ice's edge. Our quest is to discover the Arctic's grand wilderness. Be on deck as our captain navigates between icebergs that drift from the calving glaciers. If the ice yields, we'll aim to explore some of the fjords on the east coast of Greenland, awakening from winter's icy grip. If the ice is unrelenting, we'll explore a bit further south down the coast. If we find it to be completely impenetrable, we will make our way to Iceland.

Our journey ends on the west coast of Iceland: Ísafjörður, a picture postcard of Icelandic life; the immense Látrabjarg cliffs, home to a huge population of razorbills; and Flatey Island, a former trading post. (B,L,D Daily)

**JUL. 16: REYKJAVÍK/DISEMBARK/U.S.**

We'll see Iceland's capital, Reykjavik, for a guided overview of the old town, visit the famous Blue Lagoon thermal baths, and have lunch prior to our flight home. (B,L)

*“Our original itinerary had to be altered due to too much ice along lower Baffin Island, but the staff was determined to find polar bears. After a few days, we struck gold: a mother and 2 cubs, sleeping on an iceberg. The ship approached slowly and the 3 bears, as curious about us as we were about them, walked across the ice and started rolling on their backs in front of the ship. I was fortunately able to share this experience with my wife, son (age 10) and daughter (age 13). It was one of those moments that will stick in our minds forever. My son’s love for photography started on this voyage, and my daughter wrote a beautiful essay about this trip that won an award at school.”* —Bennett G., Guest, Greenland, July 2013

# GREENLAND

Is a massive island and autonomous Danish territory between the north Atlantic and Arctic Oceans. Much of its land surface is covered in ice. Most of its small population lives along the ice-free, fjord-lined coast, particularly in the southwest. Its northerly position, largely above the Arctic Circle, results in natural phenomena such as summer's midnight sun and winter's northern lights.

# CANADA

Situated in the northern extremity of North America and covering about 550,000 sq. miles, the Arctic archipelago comprises much of the territory of Northern Canada. It is bounded on the west by the Beaufort Sea; on the northwest by the Arctic Ocean; on the east by Greenland, Baffin Bay and Davis Strait; and on the south by Hudson Bay and the Canadian mainland.

## EXTRAORDINARY TEAMWORK CREATES ONCE-IN-A-LIFETIME EXPERIENCES FOR YOU

This is true exploration—whether it's attempting to penetrate the massive ice of east Greenland to reach Scoresbysund on our *Svalbard, Iceland and Greenland* expedition, or cruising among the towering icebergs of UNESCO World Heritage-designated Ilulissat Icefjord on our *Exploring Greenland and the Canadian High Arctic*. Inspired by the lure of the High North we discover polar bears, walrus, bearded and ringed seals, humpback/beluga whales, musk oxen, and quite possibly even narwhals. Our guests have enjoyed simply spectacular sightings here, and cultural rewards as well. We visit the small Inuit community at Pond Inlet, welcomed as friends since we sponsored our Field Correspondent and National Geographic Explorer, Jenny Kingsley's *Meet The North* visit there in 2016. Hike the tundra, meet locals, and search for unique wildlife that congregate along the shores of Baffin Island and Newfoundland on our *The Fabled Lands of the North: Greenland, Baffin Island, Newfoundland & Labrador* expedition. On the *Canadian Maritimes* expedition, we see the human face of Arctic exploration and migration, from the ancient Vikings to the Acadian lineage, amid the natural splendors of the sea and land.

## MAKING YOUR GREENLAND-CANADIAN ARCTIC EXPERIENCE AS RICH AS POSSIBLE

Ilulissat, Greenland.

*“A walk on the Greenland ice cap? How was that even possible? How could we get close enough, much less get guests up onto the famed ice cap of Greenland? Undaunted, Expedition Leader Russ Evans headed off in a Zodiac to scout. Come afternoon, the ship carefully felt its way into mostly uncharted waters to anchor in a lovely cove—where non-walkers could cruise along the face of a glacier in one bay, and hikers could venture up a short meltwater stream before ascending the slick glacial ice aided by lines set up strategically by the staff. Guests were ecstatic to find themselves on the Greenland Ice Cap.”*

A relaxing day at sea allows for time to hear talks from our staff about the wildlife and geology of the region. Go up to the bridge to watch for whales. Head up to the library. Enjoy the sauna or have a rigorous workout in the fitness center, with its "million dollar views." Or simply relax in the Observation Lounge. (B,L,D)

**DAYS 6-13: EXPLORING THE CANADIAN HIGH ARCTIC**

We begin our exploration of the Canadian High Arctic with a visit to the small Inuit community

of Pond Inlet, Nunavut. We will explore some of the beautiful bays and inlets along Baffin Island's northern coast and Lancaster Sound. European explorers like William Baffin first ventured here in the 17th century to search for the Northwest Passage. Our days here will be spent searching for ringed seals, arctic foxes, walrus, and polar bears, as well as beluga whales and narwhal. Visit Devon Island and walk with our ship's archaeologist to learn about the Thule people that once inhabited this region and were the ancestors of all modern Inuit. Go ashore at Dundas Harbor for a chance to hike on the tundra and search for interesting flora and fauna, including extensive moss beds with interspersed flowering vascular plants. Look for gyrfalcons, nesting above the sod and stone dwellings once inhabited by the Thule people. (B,L,D)

**DAY 14: AT SEA IN BAFFIN BAY**

We make our way back across Baffin Bay towards the coast of West Greenland. A relaxing day at sea allows for time to hear talks from our staff about the fascinating history of polar exploration and to look for wildlife from the Bridge. (B,L,D)

**DAY 15: DISKO BAY & ILULISSAT**

Sail into Disko Bay and set out to explore a tongue of the Greenland ice cap. Take an extraordinary cruise among the towering icebergs of the UNESCO World Heritage-designated Ilulissat Icefjord. Visit the town of Ilulissat and take a hike to the archaeological site in the Sermermiut Valley. (B,L,D)

**DAY 16: EXPLORING WEST GREENLAND**

Our final day exploring will be spent in Greenland's beautiful, scenic fjords. Take a Zodiac cruise or kayak some of the picturesque waterways. Our undersea specialist may launch the ROV to see the marine life inhabiting the fjord floor. (B,L,D)

# FABLED LANDS OF THE NORTH: GREENLAND, BAFFIN ISLAND, NEWFOUNDLAND & LABRADOR

**17 DAYS/15 NIGHTS—ABOARD NATIONAL GEOGRAPHIC EXPLORER**

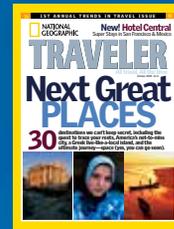

PRICES FROM: \$15,740 to \$30,380 (See pages 40-41 for complete prices.)

**O**n this north-to-south expedition, we begin with the spectacular, 100-mile-long Kangerlussuaq Fjord. We'll sail through ice-thronged waters to confront wondrous Ilulissat Icefjord, and navigate the Davis Strait to Baffin Island. We'll encounter Inuit culture, through Inuit artisans and their traditional crafts; and hike the tundra, eyes peeled for caribou and arctic fox. Ranging through the Hudson Strait, we make our way, like the Vikings before us, further south to Newfoundland and Labrador, navigating magnificent icebergs. L'Anse aux Meadows is a UNESCO World Heritage site, and for us, modern ship-based explorers, it might well be the point where we feel the stir of our ancient inner Vikings.

## EXPEDITION HIGHLIGHTS

- ▶ Glide between soaring icebergs at the mouth of the Ilulissat Icefjord, a UNESCO site.
- ▶ Wander amid the ruins of the Viking village of L'Anse aux Meadows.
- ▶ Meet Inuit artisans and learn about their carving and weaving traditions.
- ▶ Search for Arctic wildlife: whales, walrus and polar bears.
- ▶ Extend your stay in Iceland with a pre-voyage chance to explore the wonders of the Golden Circle. Details on [expeditions.com/fabledext](http://expeditions.com/fabledext)

*Walrus use their huge tusks to help haul themselves out of the water.*

As a National Geographic Explorer and Field Correspondent for Lindblad Expeditions, I spent a year planning a 50-day voyage into the Russian north. # RUSSIA

The far or extreme north is the part of Russia located mainly north of the Arctic Circle. Its total area is about 2,100,000 square miles, approximately one-third of Russia's total area. Formally, the extreme north comprises territories such as Kamchatka and Chukotka, cities such as Provideniya, all the islands of the Arctic Ocean, and the Bering Sea. As a result of the climate and the environment, the indigenous peoples of the area, including the Chukchi and the Yupik, have developed certain genetic differences and cultures that allow them to survive the harsh conditions.

## GO WHERE FEW HAVE GONE, SEE RUSSIA'S WILDEST SIDE

This is epic: our expedition into the Russian Arctic offers both firsts and foremost—experiences like nowhere else on Earth. Join us as we head into parts previously unknown to all but a very few of our team. Feel the excitement from the collaboration between our captain and expedition leader, as well as the ship's officers and naturalists. Enter the most tempting channels, bays, and inlets, in the hopes of spotting a variety of species—including the majestic polar bear on Wrangel Island's remote shores. Make landfall in the most promising locations and make exhilarating discoveries.

## BERING SEA

The Bering Sea is separated from the Gulf of Alaska by the Alaska Peninsula. It is bordered on the east and northeast by Alaska, on the south by the Alaska Peninsula and the Aleutian Islands, and on the far north by the Bering Strait, which connects the Bering Sea to the Chukchi Sea. Bristol Bay is the portion of the Bering Sea which separates the Alaska Peninsula from mainland Alaska.

*Relaxing time, brown bear, Alaska.*

**DAY 1: ANCHORAGE, ALASKA, U.S./ NOME/EMBARK**

Arrive in Anchorage and fly to Nome, Alaska. Embark *National Geographic Orion*. (D)

**DAY 2: AT SEA/CROSSING THE BERING STRAIT**

Spend the first day at sea crossing one of the most iconic bodies of water on the planet. If conditions and timing permit, we may stop at the very remote Little Diomed Island, in the center of the Strait. (B,L,D)

**DAY 3: PROVIDENIYA, RUSSIAN FEDERATION**

At the western limit of the rich transboundary area known as Beringia, Provideniya is often called “The Gateway to the Arctic”. It’s also the administrative center where we will conduct our clearance in Russia. Visit the excellent museum, and witness a traditional Yupik dance performance. (B,L,D)

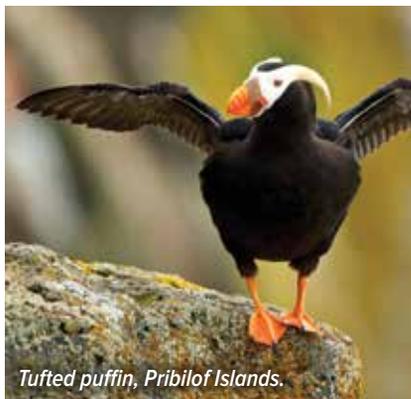

**DAYS 4–6: AT SEA/PRIBILOF ISLANDS, U.S.**

A naturalist’s paradise, the Pribilof Islands welcome three million seabirds and a million marine mammals each summer as they arrive to breed. Go ashore at St. Paul to explore on land, at St. George go by Zodiac to view puffins, kittiwakes and red-faced cormorants, as well as a northern fur seal rookery. (B,L,D)

**DAYS 7 & 8: UNALASKA/ALASKA PENINSULA**

This morning, arrive at Dutch Harbor, site of a fierce WWII battle and now one of the world’s

most important fishing ports. Continue to the Baby Islands, just east of Unalaska, where dynamic tides offer exciting potential to spot sea otters and fur seals, as well as rare seabirds, both from the ship’s deck and from Zodiacs. Continue along the eastern shore of the Alaska Peninsula, with time for exploration and wildlife watching. (B,L,D)

*Tufted puffin, Pribilof Islands.*

**DAY 9: SHUMAGIN ISLANDS**

Go ashore on Unga Island to explore incredible tundra and scattered remnants of a unique petrified forest of sequoia trees that were buried in a volcanic mudslide nearly 25 million years ago. (B,L,D)

**DAY 10: KATMAI NATIONAL PARK**

Spend today exploring the shorelines and waters of coastal Katmai National Park & Preserve, known for its abundant brown bear population, this area provides countless opportunities to watch and photograph bears digging for clams at low tide, or fishing for salmon in the creeks. (B,L,D)

**DAY 11: KODIAK ISLAND**

The second largest island in the U.S., Kodiak is best known for its brown bears and its fishing industry. Less well known is its unique mix of Native Alutiiq and Russian-American history. Join your Undersea Specialist for a “dock walk” among the commercial fishing boats in Kodiak’s inner harbor. Photograph the beautiful Holy Resurrection Church on a photo walk, or peruse native art and artifacts at the Alutiiq Museum. Later, explore one of the island’s outer bays by Zodiac. (B,L,D)

**DAY 12: EXPLORING THE KENAI PENINSULA**

Nearly 40 glaciers flow out of the Kenai’s Harding Icefield, so the opportunities for exploration abound. Cruise one of the ice-scoured fjords to the face of a tidewater glacier, while searching for wildlife along the way. (B,L,D)

**DAY 13: SEWARD/DISEMBARK/ ANCHORAGE/HOME**

Arrive in Seward this morning, transfer to the airport in Anchorage for flights home or onward. (B)

# TRUE TASTES OF THE ARCTIC

The approach to dining on the Lindblad-National Geographic fleet of ships is innovative and adventurous. Immerse yourself in your voyage by way of taste and gastronomic experiences. In keeping with the spirit of sustainability and self-reliance that dominates the region, meals feature extraordinary examples of Arctic cuisine.

*Be among the few to enjoy beer from the Svalbard Brewery, established in 2011 and made with water from the 2000-year-old glacier, Bogerbreen. Their slogan? "Brewed with 100% love—just south of the North Pole."*

Imagine a traditional breakfast of Brunost, a dense caramelized goat's milk cheese, thinly sliced over rye toasts, or Filmjölkk (a Nordic fermented dairy product much like Greek yogurt) served with crisp waffles and preserved cloudberries or sea buckthorn, hand-picked from the high Arctic mountains. Dinner features local specialties—think caribou casserole or stew, flavored with juniper berries and rosemary and filled with hearty root vegetables, mushrooms, and cream. "At dinner, it's served with potato purée and lingonberry," explains Sara Henstam, chef of the Explorer, "but for afternoon tea, I serve it in soft flat, thin bread. The guests really love it." All are paired with our wine steward's choice of European wines, or beer, including local selections.

*Above from left: Our guests always save room for dessert; traditional Scandinavian style waffles with Norwegian brunost cheese and cloudberry jam; mini canapes with smoked salmon.*

*Left: At Midsummer Solstice, our chefs prepare a feast: a Nordic smörgåsbord buffet with varieties of herrings, salmon (cold smoked, warm smoked, pickled poached, and gravlax), baby potatoes, beet salads, Scandinavian meatballs, strawberries and cream, and sticky chocolate cake—it's a big party that lasts all day, to celebrate the longest day of the year.*

*Below: Panoramic view of cod drying in a fishing town in the Lofoten Islands, Norway.*

*“Our chefs have the freedom to execute on Executive Chef Serge Dansereau’s vision, taking advantage of what is at hand rather than what’s shipped across the world. When a local boat hails with line-caught fish, the chef can say yes—and offer pan-seared cod with Sandefjorde, a Norwegian sauce similar to hollandaise. Our goal is to dine well while experiencing the geography through the food. Discovering sustainable local growers and fisheries on our itineraries to ensure that our guests ‘taste’ the regions they’re exploring is rewarding work.”*
