Transformative Voyages for Epic Explorers

Some experiences only reveal their magnificence when they are given ample time to unfold. Our epic voyages are extraordinary opportunities to slow down and explore the world in a more encompassing way. On these extended expeditions, travel to some of the world's most remote and least visited destinations, enjoy time at sea to soak in your boundless oceanic surroundings, and delight in unforgettable travel experiences that can only come from chance and spontaneity.

Going Epic

with Sven Lindblad

Sven Lindblad, founder and co-chair of the board at Lindblad Expeditions, remembers vividly the impact of his first epic voyage—a 35-day adventure around New Zealand, Antarctica, and Argentina. Ever since, he has made these journeys a mainstay of our offerings, much to the delight of loyal guests. In this conversation, Lindblad explains how the legacy of ‘going epic’ is proudly carried on in one-of-a-kind experiences across great swaths of our planet.

What are ‘epic’ voyages?

At Lindblad Expeditions-National Geographic, we have voyages of all lengths—some are five days, some are as long as 38 days. Our epic voyages are longer voyages that cover more territory. We’ve

developed these trips for a couple of reasons. First, we recognize that many of our guests really enjoy them. But also, there are certain parts of the world where, if you don’t spend the time, you’re not going to have as extraordinary of an experience.

We're out there to learn: about new cultures, about what's above and below the sea; to try new things, and to understand our world better.

That really is the essence of an expedition.

What are some of the benefits of longer expeditions?

Sometimes it's nice to slow down and get into a rhythm, build a pace where you can calm down and settle in. That's one of the big benefits of these voyages—life aboard the ship becomes more interesting. You're not just a guest, you're somebody that everybody gets to know. You become integrated with the onboard community.

What is a 'sea' day? What are some of the best ways guests can spend their time during these days?

If I go back 20 or 30 years, Lindblad Expeditions would avoid sea days—days where you're not making a landing somewhere. I remember being on certain voyages and thinking, "I really wish there was a sea day to relax, maybe read a little bit, collect my thoughts, and organize my photographs."

We began to realize people appreciate periodic days where they can enjoy the sea or pursue whatever interests them. Maybe that's spending time on the bridge learning about navigation, or having more in-depth conversations with our photographers or historians. Sea days are a welcome respite from the very active nature of the voyage.

Can you describe the sense of community that forms onboard during an epic voyage?

I feel that some of the most interesting people I've ever met in my life I've met on our ships while traveling. Why? Because the people who travel on our ships are innately curious, and that immediately creates a kind of a common bond. In the beginning of these voyages, there are different communities onboard. But by the end, there's real common ground.

On an epic voyage to Antarctica, photographers enjoy time to capture the perfect shot of ice floes sparkling under the setting sun.

Immersive Exploration On Shore and On Board

Each ship in the Lindblad Expeditions-National Geographic fleet is a destination in its own right, with first-rate exploration tools and superior amenities to ensure that your time on board is as rewarding as your time on shore. Settle into an epic voyage and enjoy extra time at sea to explore all the ways these state-of-the-art vessels can connect you with our blue planet.

Expedition Ships Purpose-Built for Epic Voyages

Our nimble expedition ships sail along sinuous rivers, into small harbors, and through polar ice to provide travelers with up-close experiences in wild and remote places. On an epic voyage, that could mean navigating the seldom-seen channels of the Northwest Passage, gliding into a forgotten bay in French Polynesia, or parking the ship amid Antarctic sea ice. Because each vessel is stocked with a fleet of kayaks, Zodiacs, and stand-up paddleboards, we can explore even further, without being dependent on ports or piers.

Each of our ships also excels on the open water, with stabilizing technology to guarantee a smooth ride in all conditions. Generous decks and comfortable lounges

with expansive windows keep travelers connected to our marine surroundings when we're not out exploring. Watch for leaping rays from the observation deck of *National Geographic Orion* on a voyage across the Pacific, pore over route maps in the *National Geographic Explorer* chart room, or gaze at the endless horizon from an infinity hot tub on *National Geographic Endurance* or *National Geographic Resolution*. The fleet's stunning common spaces are designed to spark your curiosity and wonder.

Explore Your Interests With Our Experts

Epic voyages give us the luxury of days at sea, when guests can pursue their personal interests. Our team of experts—such as naturalists, cultural experts, and certified photo instructors—will be on hand, giving compelling lectures and workshops, and engaging

in lively conversations with our guests. Take this time on the water to indulge in whatever suits

you: learn about navigation on the bridge, engage in an informal photo editing session, or talk about whale behavior with a wildlife biologist. With access to a library, a stocked OM System Photo Gear Locker, and other amenities, you will find a wealth of opportunity for educational and creative pursuits.

Indulge in Our Wellness Program

Greet the day on deck with a sunrise yoga session or unwind in the spa with a massage, accompanied by the sound of soothing waves. Our dedicated wellness spaces—including treatment rooms, saunas, glass-enclosed fitness centers, and more—encourage travelers to tap into the natural rhythms of the ocean. Treatments are tailored to your individual needs, and each of our fully accredited wellness specialists is also a licensed massage therapist.

GARIBALDI FJORD

To discover more daily expedition reports, go to expeditions.com/DER

Here in Chilean Patagonia, we planned to spend the afternoon exploring Garibaldi Fjord, but icebergs floating by our ship in the morning hours indicated that one of the fjord's tidewater glaciers was especially active. So we decided to get an early start, cruising through the brash ice before coming face-to-face with the Garibaldi Glacier, where we observed several wonderful calving episodes before boarding Zodiacs to inspect the nooks and crannies of the fjord.

Pacific Islands

Just beyond Hawaii's familiar beaches, remote Pacific isles stretch across pristine seas, offering travelers illuminating perspectives on the dazzling diversity of the South Pacific. Set sail for some of the most far-flung tropical isles on Earth to see a surprising side of paradise: vestiges of lost island cultures, abandoned World War II battle sites and shipwrecks, and thousands of endemic species under water, on land, and in the sky.

National Geographic Endurance & National Geographic Resolution

CAPACITY: 126 guests in 69 outside cabins.

REGISTRY: Bahamas. **OVERALL LENGTH:** 406 feet.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships, purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow® is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.

PUBLIC AREAS: Observation lounge with bar, three dining areas, gym, wellness area, infinity-style outdoor hot tubs, library, main lounge with full service bar, 24-hour beverage, state-of-the-art facilities for films, slideshows and presentations, and a photo workshop area; plus, an expedition base with lockers for expedition gear, and an “open Bridge” for access to our captain, officers and the art of navigation.

MEALS: Two restaurants, featuring local, sustainable choices and unassigned seating for flexible, inclusive dining; plus a Chef’s table for intimate, small group dining. Main restaurant has 270° views, and the Observation deck restaurant features lighter, made-to-order fare.

CABINS: All cabins face outside with large windows, private facilities and climate controls. 53 cabins have balconies. Cabins are equipped with expedition command centers with tablets and USB/mobile device docking, TVs, Wi-Fi connections, and hair dryers.

EXPEDITION EQUIPMENT: Zodiacs, kayaks, snowshoes, cross-country skis, Remotely Operated Vehicle (ROV) and underwater video camera for unique access to polar marine world, hydrophone, aerial remote-controlled camera, video microscope, and OM System Photo Gear Locker.

SPECIAL FEATURES: A full-time doctor, undersea specialist, National Geographic photography expert, Lindblad Expeditions-National Geographic certified photo instructor, an internet cafe and laundry.

WELLNESS: The vessel is staffed by our wellness specialists and features a glass-enclosed yoga studio, gym, treatment rooms and spa relax area, and high and low-heat saunas with ocean views.

From top: igloo; library with a view.

Clockwise from left: Two Seven Zero® restaurant; standard cabin; suite with balcony.
