

# FAMILY EXPEDITIONS

INSPIRING  
POSSIBILITIES  
FOR EXPLORING  
TOGETHER

PLUS  
SPECIAL AIR &  
VOYAGE OFFERS  
DETAILS INSIDE!

DEAR TRAVELER,

There are so many possibilities to consider when planning your family travel—and there is so much family to consider, too. When my two youngest kids—a girl and a boy, three years apart—were school age, it was like having two different species in the house, with precious little connecting their interests. Add parents and extended family to the equation, and you're up to three or more different species!

Expedition travel, with its mix of new daily sights, wildlife, undersea wonders, and activities for every age and fitness level, is the ideal way to unite old and young in shared experiences they will both find exhilarating. In this era of devices and seemingly limitless connectivity, it's become far too easy for family members to spend too much time with their phones and tablets than each other. Exploring together in pristine wildness will disconnect your family from the screens and headphones and re-connect you with one another. And kids and teens will find a new outlet for their curiosity and interest on our Galápagos and Alaska expeditions: our exclusive National Geographic Global Explorers program, developed in conjunction with National Geographic Education. Learn more about the program on pages 6-7.

In addition to a superb experience, we also offer families a priceless commodity: ease. As a parent I know that there's much to be said for seamless and hassle-free. Our team ensures every detail—from flights to food to gear—is taken care of, so all you have to do is relax and enjoy the adventure. On behalf of our expedition teams worldwide, I hope you will choose to join us in one of the marvelous geographies featured in this brochure, or any other Lindblad-National Geographic expedition that might suit your family.

All the best,

Sven-Olof Lindblad

# AN EXPEDITION—THE MOST EXCITING

*Put simply, an expedition is smart fun for all ages, and for all types of families, from tiny to clan-sized. Being aboard ship creates a fresh context for families to be together, or come together, if they're far-flung or chronically schedule-challenged. Inherently diverse and active, an expedition offers remarkable experiences to share, with daily opportunities to do things together, or to follow separate interests—and meet at dinner to share the day's stories. And because our expeditions attract families, the community that forms on board is uniquely welcoming. We have over 50 years of expedition experience and have learned a lot about optimizing opportunities for our guests; and we are dedicated to ensuring the quality of your family's experience. Here are some key reasons why families choose us:*

# & INTERESTING EXPERIENCE TO SHARE

- ✓ **Ease & convenience** Whether you're a hyper-busy parent planning the family vacation around a dozen other tasks, or the clan's travel planner determining where the family is going this year, we make your task easy. We create a seamless experience—from booking round-trip flights and transfers, to a richly rewarding itinerary, and shipboard life that includes kid-friendly meals;
- ✓ **Choice & flexibility** We offer activities tiered for every fitness level and age group to ensure multigenerational fun (yes, even teens respond well!). And that means every day your family members can choose what to do—photography walks, hiking, kayaking, snorkeling, and more. And with whom to do it—you're free to gravitate to the expedition naturalists whose personality and interests match yours, or theirs. Relaxing with a book, in a hammock or deck chair is always an option, too;
- ✓ **Environment** Our expedition ships, ranging from small to yacht-scale, are ideal for families, providing the perfect balance of intimacy and independence for kids; they are uniquely warm environments as well; our staff and crew are wonderful with kids; and our naturalists are such role models they're often followed about by a small band of admirers;
- ✓ **Expert photographers** Lindblad-National Geographic certified photo instructors are on every departure with tips, camera setting instruction and advice to help every interested family member—whether they're using their smartphone, a DSLR or point & shoot—snap the moments that capture the heart of their expedition. Want a family portrait? They can help with that, too;
- ✓ **Family travel discount** We invite you to take \$500 off the cost of your expedition for each child traveling with you under the age of 18 and enjoy a 5% savings for groups of 8 or more;
- ✓ **Exclusive family program for kids and teens** National Geographic Global Explorers launched in Galápagos in 2017, and rolled out to Southeast Alaska in 2018. Developed in conjunction with National Geographic Education, it's unique in travel—turn to pages 6-7 to learn all about it, including what some recent 'explorers' have to say.

*From top: Family members capturing wildlife shots from the ship's bow; our naturalists provide expert interpretation on hikes; kids of all ages discover the unique flora, fauna, and ice we see on our expeditions.*

# THE MOST EXHILARATING DISCOVERIES ARE THE ONES YOU MAKE TOGETHER

Whether it's kayaking through a quiet cove, hiking an ancient forest, spotting a bald eagle, or watching humpback whales surge as they feed, we believe shared activities in a wild and unfamiliar environment can unite a family.

Our expeditions ensure seamless family getaways where everything is taken care of. Kids thrive in the safe, comfortable spaces of the ship where they can exercise a measure of autonomy. Our naturalists and National Geographic certified field educators are excellent role models who ably embed learning in every activity. And since we believe the most exhilarating discoveries are the ones you share with your kids and grandkids, we offer **\$500 off the double occupancy rate** for each child under the age of 18.

*Clockwise from top left: A young guest plays in the crystal-clear water in Galapagos; guests of all ages have an open invitation to visit the ship's bridge; our naturalists provide expert interpretation on hikes; disconnect from screens and re-connect with your entire family in nature.*

# SMART FUN FOR KIDS AND TEENS OF ALL AGES

National Geographic Global Explorers, our exclusive family program, is aboard all ships traveling in Alaska and Galápagos. Developed in conjunction with National Geographic Education, this unique exploration-based program provides an unforgettable “smart fun” experience. Kids and

teens choose cool activities—from earning a Zodiac “driver’s license” to recording wildlife sightings in their Field Notebook—all designed to help them develop the attitudes, skills, and knowledge of an explorer. Guests under age 18 will have the opportunity to:

“This is the best classroom in the world. [This program] gives them a great opportunity to understand everything about the web of life, and at the same time they’re doing all of it while having fun.”

— MICHAEL P.  
Guest traveling with his  
children in Galápagos

- ✓ **First and foremost, have fun!**  
They’ll swim, snorkel, paddleboard, kayak, and much more with newfound friends and create lifelong memories.
- ✓ **Benefit from National Geographic certified field educators:** Our naturalists, designated as National Geographic certified field educators, optimize daily learning opportunities and fun for families.
- ✓ **Connect with nature:** They’ll have direct contact with wildlife and wonders above and below the sea, such as snorkeling with sea lions or identifying whale flukes from the ship’s bow.

- ✓ **Learn to be a storyteller:** Using photos, video, music, writing and more, kids and teens will be encouraged to use their creativity to tell stories about the unique things they’ll do and see along the way.
- ✓ **Develop their observation skills:** Daily “In the Field: Spot It!” activities will prompt kids to watch out for a particular item, like a creature with scales, then record their observations in their Field Notebook.

*Above right: Zodiac driving lessons are a highlight of the program. At right: Kids receive their own exclusively developed and designed Field Notebook to record their observations, jot down stories and sketches, and collect “points” for activities on their way to becoming a National Geographic Global Explorer.*

# A DAY IN THE LIFE OF A NATIONAL GEOGRAPHIC GLOBAL EXPLORER ON & OFF SHIP

## Morning

- Rise and shine! Head for the National Geographic Global Explorers bulletin board to get your In the Field: Spot It! observation clues, new inspiration for a Storytelling Challenge, and other daily details
- After breakfast, hop in our expedition landing craft, and head out to hike among fascinating wildlife and plants. In Alaska, spot a bald eagle or sea otters. In Galápagos, observe sunbathing marine iguanas. Jot your species sightings and thoughts in your Field Notebook
- Or head with a National Geographic certified field educator to collect plankton from your expedition landing craft, then view it under the video microscope aboard

## Midday

- After lunch, be a digital storyteller! Meet your Lindblad-National Geographic certified photo

instructor or the ship's video chronicler in the Lounge and learn how to use your smartphone to create impressive slow-motion and time-lapse videos—then test out those skills later on in the field

## Afternoon

- It's time to drive! Learn to operate our expedition landing craft and earn your "license"

## Evening

- Before dinner, head to the Lounge to recap what you saw and did in your Field Notebook. Add the day's points to your points tally so that you can keep track of your progress on being certified as a National Geographic Global Explorer
- After dinner, head to the top deck to stargaze with a naturalist who will be your guide to the night sky. Does the sky look different than above your home? Draw a star map in your Field Notebook.

**Join the fun! Here's what two other National Geographic Global Explorers, ages 15 & 16, had to say about their experience in Southeast Alaska:**

- ✓ Don't act like you're too cool for it! It's fun for all ages
- ✓ Be prepared and comfortable
- ✓ Don't be afraid to try new things! But follow the rules
- ✓ Try new foods
- ✓ Take lots of pictures!
- ✓ Meet new people
- ✓ Make new friends
- ✓ Say thank you
- ✓ HAVE FUN!!!

# COOL TOOLS ABOARD ENSURE EXTRAORDINARY EXPERIENCES

Our expedition ships are uniquely equipped with cool tools for exploring. On every departure, kids of all ages, and their adults, can enjoy our tools to enhance expedition experience. Kayaks; stand-up paddleboards; snorkel gear, including shorty wetsuits, in sizes for all (and yours for the duration of the voyage). In addition, video microscopes, bow cams, and expedition landing craft provide intriguing perspectives on the region you're exploring.

*Guests have the opportunity to participate in water activities of all kinds, from snorkeling and stand-up paddleboarding to kayaking and cruising by expedition landing craft.*

When disembarking her Southeast Alaska expedition, 14 year old National Geographic Global Explorer Mariana Thomas had this to say to our staff:

“My career goals have changed because of you! Now I want to be a naturalist. Next time I come back, I’m wearing your [black staff] shirt!”

*A sampling of our expert staff, clockwise from top left: Jonathan Aguas, Jen Martin, Jason Heilmann, Paula Tagle.*

## OUR TEAM DOES WHATEVER IT TAKES

Wherever you choose to explore with us, our expert expedition team will do whatever it takes to make your family’s experience extraordinary. Whether that means taking the ship off course to linger with a group of bubble-netting whales; manning the spotting scopes at night so you don’t miss a bear sighting; or pausing on a walk to witness the birth of a sea lion. In Galápagos and Alaska, the National Geographic certified field educator on board helps optimize daily learning activities while ensuring kids and teens have fun.

# MAGICAL ENCOUNTERS GUARANTEED

Watch the wonder in your child's eyes as they get incredibly close to a baby sea lion, walk among hundreds of marine iguanas, and snorkel with graceful sea turtles. The Galápagos are the most interesting islands on Earth—where incredible encounters with fearless wildlife happen like nowhere else—and you'll make one-of-a-kind family memories.
