IT'S A PRIVILEGE TO EXPERIENCE  
GALÁPAGOS & WE ARE THRILLED  
TO SHARE IT WITH YOU

**HUNDREDS OF PEOPLE COME TO GALÁPAGOS EVERY WEEK** to experience its legendary landscapes and wildlife, but few actually explore it. The expeditions we offer, aboard the 48-guest *National Geographic Islander*, and the 96-guest *National Geographic Endeavour II* are for those who want a 100% engaged, exploratory Galápagos experience. Our ships are base camps, and they welcome you back from each day's discoveries with open arms. Supremely gracious with all the comforts and amenities, our ships feel like home immediately. It has a lot to do with our staff—our expedition team's passion for the place, the warmth and hospitality of our hotel team, and the inviting willingness of our captains and officers to share the Bridge with you. And it has a lot to do with how swiftly a community forms around the idea of being in this together—of not just passively experiencing Galápagos, but actively creating our own exhilarating adventures daily, with and for each other.

“ We have learned that pace, emphasis, and a diversity of opportunity matters a great deal to people. Some want to move more slowly on land, some with greater pace. Some want to focus on photography, some want to spend as much time as possible snorkeling. Others want to kayak or use our paddleboards. And some want to do it all. What will appear seamless to most is actually quite complicated, requiring a robust staff to support the activity, including naturalists, Lindblad Expeditions-National Geographic photo instructors, an expedition leader, someone who films the undersea and presents what's down there, and a video chronicler to document the time. The staff is paired with a team of navigators, chefs, laundrymen and all manner of people to serve your every need.

# EXPLORE GALÁPAGOS WITH THE FREEDOM TO ENJOY IT YOUR WAY

## EACH DAY, WE PROVIDE A FRESH DESTINATION PLUS ALL

kinds of choices of what to do. Hike, paddleboard, kayak. Snorkel, arrange to dive, hang out with your photo instructor. But should you decide to sleep in, have a slow breakfast, and get a massage, nobody will look at you funny. You're on vacation. Your vacation. Our schedules are flexible and our itineraries more a function of what's to see than where we need to be. So, if you want to work up a sweat on your walk, snorkel every time it's offered (often two times a day), or sit and breathe it all in—do it. It's your adventure. Our generous staff-to-guest ratio means you can always find a naturalist whose interests and approach you share. You're free to explore the ship, find your nook or cranny. And always welcome to come up to the Bridge and shoot the breeze with the captain and officers.

## We have been introducing

curious, intelligent travelers to Galápagos since 1967, and we've learned everything there is to know about the islands, and about how to help our guests make the most of their time.

More flexibility, more choices and activities, a respect for individual preferences, and yet a rewarding level of *esprit de corps* is what has made our Galápagos expeditions so rewarding for so many over 50+ years.

GALÁPAGOS IS A LAND & SEA EXPERIENCE  
SEE, LEARN, & DO MORE

**GALÁPAGOS IS ONE OF THE WORLD'S LARGEST BIOSPHERE** reserves, covering hundreds of square miles of ocean. The Galápagos undersea is vibrant, as full of interesting creatures as the land. It's half the experience, vital to your understanding. So, we devote time and attention to enabling you to explore the fascinating world beneath our ships. During your voyage you will have many opportunities to snorkel, sometimes twice a day. You'll see acrobatic sea lions, Pacific green sea turtles, and passing penguins. You might swim amid hammerhead sharks, a cloud of colorful fish or see a blue-footed booby plunge in to spear dinner. And because we have complete snorkeling gear aboard, exclusively yours for the duration, there's no need to pack or tote. And in addition to, or instead of, experiencing the amazing undersea yourself, you'll have the option to view video footage, presented by our naturalists on the Lounge's TV screens to guide you into the deep and enrich your understanding.

**We enable Scuba divers to** experience Galápagos' diverse marine life, by arrangement with a local dive operation. Available to intermediate and advanced divers with recent experience, diving is available on select *National Geographic Endeavour II* departures, at an additional cost. Speak with an Expedition Specialist for dates and details.

# FROM THE CAPTAIN ON THE BRIDGE TO YOUR CABIN STEWARD, IT'S ONE TEAM WITH ONE MISSION

## MAKING GALÁPAGOS EXCEPTIONALLY REWARDING FOR YOU

is our goal, and our team is integral and united. Our naturalists have the knowledge and passion for Galápagos that will kindle yours. They will do whatever it takes, from maintaining a constant lookout so you don't miss a passing whale; offering an extra snorkel when sea turtles are congregating nearby; or pausing on a walk, as has happened, to witness the birth of a sea lion pup. They'll help you to see, do, and absorb all the extraordinary experiences—with inspiration, and great conversations included. Our hotel team will wrap you in service and attention. They'll know what you like and how you like it from Day One. Regardless of how often you're in and out of your cabin, it will be immaculate when you return. And if you're traveling with children or grandchildren, their special way with kids will warm your heart. And the captain and his officers welcome you any time you want to visit the Bridge—to scan for birds with your naturalists, or simply enjoy the calm skill of the team as they navigate from one incredible island to the next.

“It's absolutely amazing to me what the staff is willing and able to do to make each day extraordinary. We didn't just get to see Sierra Negro volcano erupting, that was amazing enough. We had a “LAVA BBQ” on deck, so everyone could enjoy the spectacle and have an incredible dinner too. Then the captain arranged with the naturalists and hotel staff to stay in the area, so that we could see and photograph the spectacle again at dawn. It was so exciting on every level. Impressive!”

LIFE ABOARD OFFERS THE LUXURY OF  
INTERESTING POSSIBILITIES + COMFORT

## OUR CONNECTION TO GALÁPAGOS CONSERVATION HAS

deep roots. For many guests, that's a compelling reason to choose to explore Galápagos with us. But there's more: that connection means things are often extra-interesting aboard our ships. We often help researchers and scientists from the Charles Darwin Research Station and other organizations, plus National Geographic Early Career grantees, guides in training, Galápagos National Park rangers, and more fascinating individuals get to their project locations within the islands. We've transported delicate eggs to help the Mangrove Finch Project conserve this threatened species; conducted sea turtle censuses for scientists with help from our guests; and transported scientists working on the Marine Invasive Species project. You never know who you're going to meet, or what engaging conversation you'll find yourself in—over lunch or dinner aboard our ships! After weeks in the field, they are thrilled by the amenities our ships afford—from the spacious comfort of the public spaces and cabins, with their crisp linens, to the breakfast and lunch buffets, and graciously served dinners. We think you'll relish the amenities too, as well as the chance to meet interesting people engaged in doing essential work in and for these islands.

Travel on these dates to share the adventure with interesting individuals:

# THE MOST EXHILARATING DISCOVERIES ARE THE ONES YOU MAKE TOGETHER

**WHETHER IT'S KAYAKING ALONG A SHORE STUDDED WITH** flightless cormorants, or observing blue-footed boobies performing a courtship dance, we believe shared activities in a wild and exciting environment can bring a family together. Kids and teens thrive in the safe, comfortable space of the ship where they can exercise a measure of autonomy. Teens are so engaged by the program's activities, they even drop their devices. Our naturalists and National Geographic certified field educators are excellent role models who ably embed learning into every activity. And since we believe in the value of sharing Galápagos with your kids and grandkids for fun and learning, we invite you to take \$500 off the double occupancy rate for each child under 18.

## **National Geographic Global Explorers Program**

Our exclusive program for kids and teens is the only one of its kind in Galápagos travel. Developed in conjunction with National Geographic Education, it's designed to help kids and teens under 18 develop the attitudes, skills, and knowledge of an explorer. Families discover a unique way to explore and connect with each other and the natural world. And kids engage in a variety of cool optional activities from earning a Zodiac "driver's license" to recording wildlife sightings in their Field Notebook (pictured at left)—all guided by a National Geographic certified field educator.

WHAT WILL YOU CREATE WITH  
LINDBLAD-NATIONAL GEOGRAPHIC  
CERTIFIED PHOTO INSTRUCTORS  
TO GUIDE YOU?

**WHILE YOU'RE DISCOVERING GALÁPAGOS, YOU'LL HAVE THE** benefit of a Lindblad-National Geographic certified photo instructor (CPI) at your side and at your service. He or she can help you with anything from camera settings to the basics of composition. Now, every guest—from iPhone camera users to advanced hobbyists—can stand side-by-side with skilled photographers, pick up tips in the field, and take great photos. Our CPIs are also trained naturalists so they'll help you better understand wildlife behavior, too. Whether you're choosing a shutter speed to capture a tortoise or framing a sea lion against a killer backdrop, in-the-moment tips from accomplished pros will help you return home with your best photos ever.

# FARM-TO-TABLE DINING IN GALÁPAGOS

**OUR PIONEERING FARM-TO-TABLE CULINARY PROGRAM IS ROOTED IN OUR COMMITMENT**

to sustainability. We are proud to have already provisioned more than 20 tons of organic and local produce for our two Galápagos ships. One farm supplies specialty produce exclusively for us: chilies, flat leaf kale, heirloom cherry tomatoes, cilantro, and edible flowers. And our collaboration has allowed them to enhance their innovative eco-agriculture and self-composting systems to use less water and turn organic waste into fertilizer.

In addition to delighting our guests with fresh, delicious produce, sourcing locally limits importing and the risk of potentially bringing invasive species into the islands. Eat up!

# COMMITTED TO GALÁPAGOS CONSERVATION FOR 50+ YEARS

**TOGETHER WITH OUR GUESTS WE'VE CONTRIBUTED \$8.8 MILLION** to important conservation, education, research and storytelling, and technology projects in Galápagos currently through the Lindblad Expeditions-National Geographic Fund (LEX-NG Fund). And since the Fund carries the management costs, 100% of guest donations stay in the region. You can opt to experience one of the projects we support by visiting the Tomás de Berlanga School, a local open-air school in the highlands of Santa Cruz, that immerses its students in nature. Or you can take Galápagos waste products off island when you leave, in the form of beautifully crafted up-cycled objects, made by LEX-NG Artisan Fund artists. Lindblad's conservation efforts date back to our very first Galápagos expeditions more than 50 years ago.

That's a reason to feel good about traveling with us—as is the fact that as of 2019, we're a carbon neutral company, offsetting the carbon emissions of our fleet, employee travel worldwide, offices in New York and Seattle, all land-based operations, and beyond. This is another step in our ongoing commitment to sustainability, including the elimination of all single-use plastic aboard our fleet; and a long-term sustainable seafood policy.

## **National Geographic Early Career Grantee Salomé Buglass**

Salomé Buglass is working with the Charles Darwin Research Station to lead the first exploration and assessment of uncharted submerged seamount ecosystems in Galápagos. Using an ROV, Salomé will conduct the first baseline study here. Her research will provide essential information to improve science-based sustainable fisheries management in Galápagos and protect these understudied regions.

EXPLORING GALÁPAGOS &  
GALÁPAGOS + PERU—SO MUCH  
TO SEE, DO, AND LEARN

REFINED OVER 50+ YEARS IN THE REGION, OUR CLASSIC 10-day expedition gives you time to revel in the wildness of Galápagos. The staff was always on time and ready for us, whether it was handing out wet suits, fins and masks or jumping on the zodiacs to begin the next activity.
