NATIONAL
GEOGRAPHIC

Lindblad Expeditions and National Geographic have joined forces to further inspire the world through expedition travel. Our collaboration in exploration, research, technology and conservation will provide extraordinary travel experiences and disseminate geographic knowledge around the globe.

DEAR EXPLORER,

Ever consider a Costa Rica safari? Sounds surprising, doesn't it. Well, if you join us to explore Costa Rica & Panama as we do, by ship, it feels very much like being on safari.

I know this because I spent my formative years in Africa, working with a safari operator, creating extraordinary immersive experiences for travelers. Then, when I went to work for my father, Lars-Eric Lindblad (who pioneered ship-based expedition travel to Antarctica in 1966, and to Galapagos in 1967) I realized that ships are exactly like bush camps, only better—they move, allowing you cover great expanses of interesting, diverse geography in complete comfort. Plus, you experience the sea, stars and sightings that make being aboard a ship magical.

That's what we have been doing for the past 50 years. And that's what we do in Costa Rica. Our base camp, *National Geographic Quest*, the newest ship in our fleet, enables you to not only see and do more, but to have experiences you couldn't otherwise have—like transiting the Panama Canal and overnighting in Gatun Lake, and visiting Barro Colorado Nature Monument, home of the Smithsonian Tropical Research Institute.

You'll learn the history of the Panama Canal, and transit all three sets of locks.

And, you'll discover Costa Rica as an active explorer, not a tourist—a distinction that will be clear to you if you choose to join us. We've eliminated any of the now-overrun spots from our itinerary, and replaced them with more exclusive opportunities that bring you more deeply into the authentic, pura vida of Costa Rica—including meeting Costa Ricans making their living as they preserve Costa Rica's legendary natural beauty.

I hope you'll decide join us this December, so you can benefit from some very special savings. Costa Rica, and expedition ship travel, offers the kind of tonic the human soul needs.

All the best,

GET EVERYTHING COSTA RICA OFFERS AND A WHOLE LOT MORE

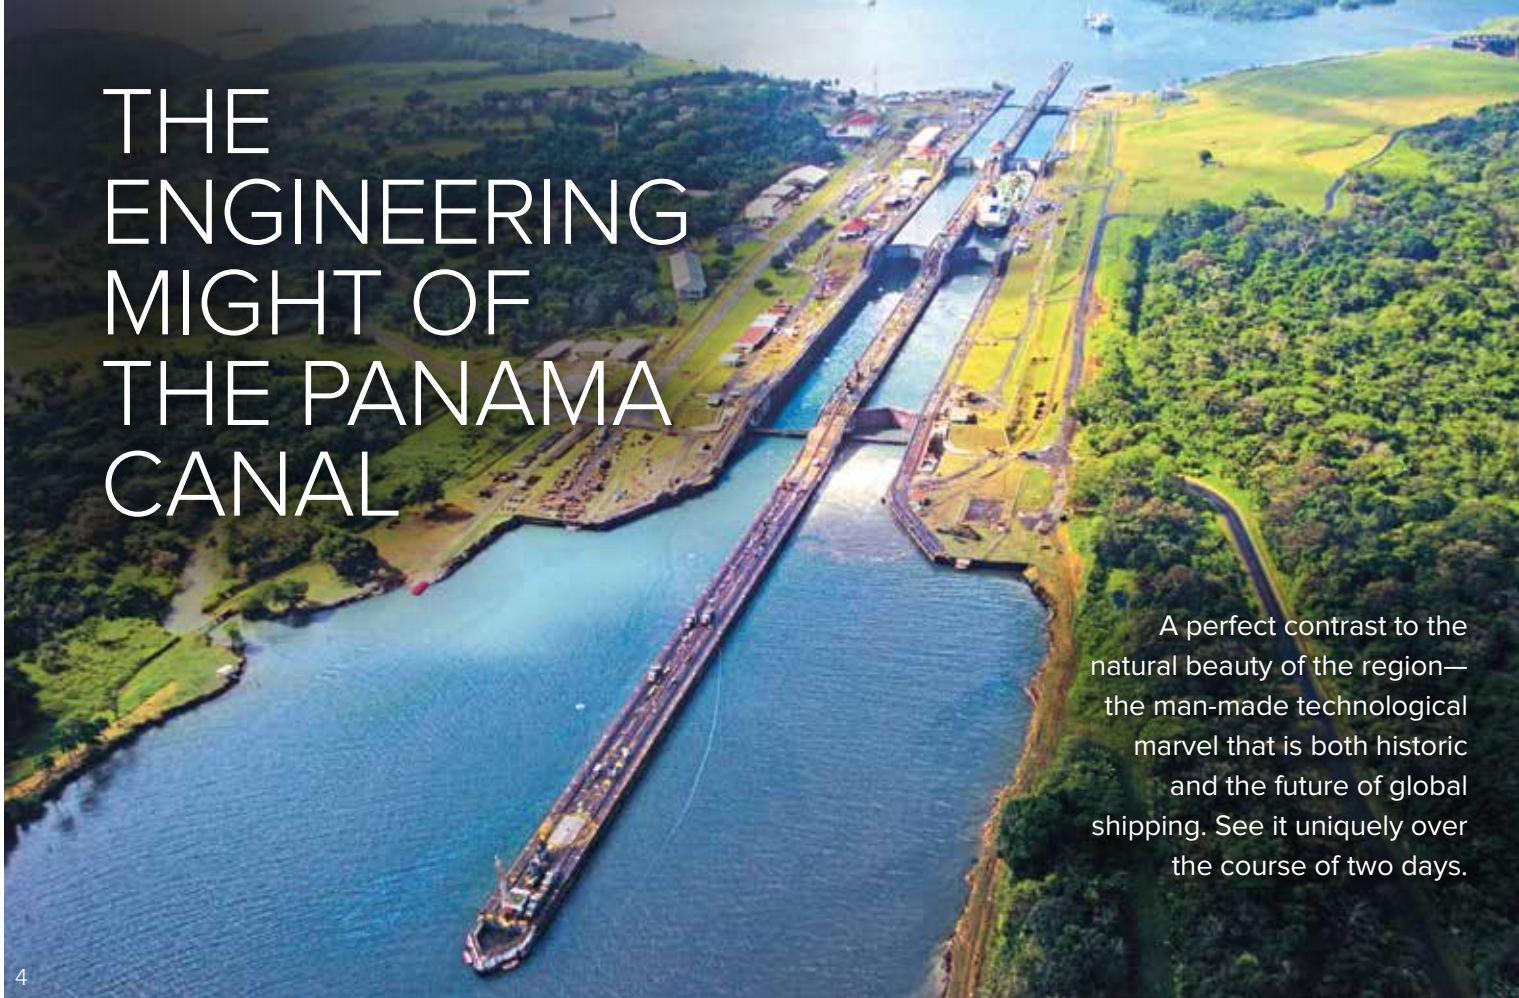

National Geographic Quest is your front row seat on the legendary diversity of Costa Rica as you actively explore on land and sea. Transit the Panama Canal, see its engineering wonders, learn its history & explore the idyllic islands as well. No terra firma stay can deliver all this expedition can—it's Costa Rica plus-plus-plus! See what's ahead.

THE RENOWNED BEAUTY OF COSTA RICA

The Osa Peninsula is the crown jewel of Costa Rica. Explore its coastline by ship and on shore. Search for monkeys, frogs, sloths and brightly colored birds; go horseback riding on a pristine beach, hike, and more.

THE ENGINEERING MIGHT OF THE PANAMA CANAL

A perfect contrast to the natural beauty of the region—the man-made technological marvel that is both historic and the future of global shipping. See it uniquely over the course of two days.

THE WARMTH OF COSTA RICAN PEOPLE

See what happens when local rural people in Corcovado take responsibility for preserving Costa Rica's natural beauty. Meet and share with local entrepreneurs, families and explore untrammelled rainforest.

THE TROPICAL LUSHNESS OF PANAMA

Few travelers who want to see Costa Rica consider Panama—and the surprise and delight Coiba National Park, a UNESCO World Heritage site, creates in our guests, gratifies our expedition team every season.

STATE OF THE ART: NATIONAL GEOGRAPHIC QUEST

Our small ships have been exploring Costa Rica and Panama for more than three decades, and we've learned what matters to our travelers. We designed the 100-guest *National Geographic Quest*—and its twin ship the *National Geographic Venture*, debuting in June 2018—to bring our travelers the best possible expedition cruising experience. Along with top amenities and comfort on the inside, and bow and deck spaces designed for easy access to the world outdoors, we've added a variety of enhancements that make this one of the top exploration vessels out there.

✓ TOOLS FOR EXPLORATION

Quest carries a new fleet of customized expedition landing craft, kayaks and paddleboards, a hydrophone and ROV (remotely operated vehicle), a splash-cam, an underwater video camera, and snorkel gear.

✓ FRONT ROW SEATS ON WILDNESS

The ship's new bow design adds tiered observation platforms. Now, multiple rows of guests can gather on the bow and enjoy unobstructed view. Plus, stairways lead to an expansive observation deck one level up, for a more commanding perspective.

✓ AN ENHANCED BRIDGE

Outfitted with the latest in technology, the bridge design has been enhanced—with a forward standing area with clear views, and settees surrounding the room's state-of-the-art navigation equipment, so that you can linger comfortably.

✓ A CLEARER VIEW

Premium glass, straight-tinted for the clearest, most natural view possible, was used in the dining room's and the lounge's floor-to-ceiling wraparound windows. And in the cabins, too—in portholes, large windows, or sliding glass doors.

COSTA RICA: NATURE + AUTHENTIC CULTURE

The Osa Peninsula, largely inaccessible and seldom visited, is the focus of our expedition. It contains four percent of the world's biodiversity and Corcovado National Park—one of the largest protected areas left on the entire Pacific Coast of Central America. Experts consider it one of the world's top parks—for its size, isolation, high diversity of species (including endemics), wealth of ecosystems, and the pristine condition it has maintained. The rural entrepreneurs of Caminos de Osa, a community-based tourism destination,

practice sustainable development. We've arranged for you to meet them and see what they're accomplishing. Visit a local palm farm to learn the process from planting to putting it on the plate. Then, take a short cooking class, and make a tasty local dish. Or, visit a private reserve where a small path opens the door to virgin rainforest—with giant trees, thousands of plant species, birds, insects, mammals, and other forest creatures. Or, visit an artisanal gold mine, accompanied by Juan Cubillo, a former gold digger

turned conservationist—pan for gold, and learn the techniques used to obtain clean 24 carat gold. These and other opportunities will immerse you in the essence of Costa Rica’s national character, and it’s famed “Pura Vida.”

Across Golfo Dulce, you’ll enjoy another unique experience—a site of scenic beauty and natural wonder, unmarred by any development, thanks to local opposition. Learn about the plate tectonics beneath the gulf, and visit a 25+-year-old private tropical garden, created and managed by two American expats, and more.

VISITING CAMINOS DE OSA IS A NEW FEATURE OF OUR COSTA RICA EXPEDITION

Enter the green heart of the Osa Peninsula and meet local people who will introduce you to Costa Rica’s authentic culture

PANAMA: A TROPICAL LAND & SEA SANCTUARY

Two hundred islands populate Coiba Island National Park, part of the Marine Life Corridor created in September 2016 by the Presidents of three nations—Costa Rica, Ecuador and Columbia—to safeguard sea turtles, sharks, and a host of other species off their coasts. Only the Great Barrier Reef and the Galapagos National Park are larger. Coiba was a prison until the end of the 20th century, literally suspending this 55 thousand-acre land mass in time, keeping it secluded and pristine.

You'll have opportunities for kayaking or paddle boarding, swimming, snorkeling or herding scuttling hermit crabs on white sand beaches. We'll also be able to take rainforest walks, find photos ops or bird watch—soaking up the lush tropical beauty, the bright reef fish, the ancient lava flows and much more—before we set sail for our one-of-a-kind Panama Canal transit.

AN EXTRAORDINARY PANAMA CANAL TRANSIT

Be sure to be out on deck, or on the Bridge, as we approach the Canal entrance, to see the distant silhouette of the very modern capital city of Panama emerge; to see skyscrapers against the sky instead of tall rainforest trees. We'll hold our position entrance as we wait for our canal pilot to board—observing the gargantuan Panamax and Neopanamax vessels holding position for their transit. We'll see the landmarks: The Amador Causeway, the Bridge of the Americas. The Centennial Bridge frames the entrance of Gaillard Cut, as we cruise through to enter the Miraflores locks. And the best is yet to come.

Only aboard *National Geographic Quest* can you wake up anchored in the middle of the Panama Canal; she is the only ship allowed to overnight, and complete the transit over the course of 2 eventful days, enabling you to see the Canal by day and night. We'll experience the thriving life in the Bay of Panama and within; on a sunrise outing to see brown and blue-footed boobies, magnificent frigatebirds; and meet the denizens of Iguana Island. And we'll enjoy an added privilege: Barro Colorado Nature Monument, home to the Smithsonian Tropical Research Institute. Whether it's a bucket list must, or simply a bonus on your Costa Rica & Panama expedition, you will remember your Canal transit forever.

LIFE IS GREAT ABOARD YOUR EXPEDITION SHIP

Modern and elegant with a gracious, sunlit ambiance, *National Geographic Quest* will be your base for this unforgettable adventure. A stylish setting that is also relaxed and informal, Quest's interiors are designed to serve the expedition community—and foster the esprit de corps that is a hallmark of our expeditions. Roam freely to discover all her nooks and crannies, including the Bridge where you are welcome to watch the captain and his officers navigate, and help the naturalists scan for birdlife and whales. Enjoy spirited cocktail hours, our lively daily Recap sessions and informative presentations, in the dramatic window-lined main lounge. No assigned seating in the informal indoor dining room makes for easy mingling with fellow guests, expedition staffers and special guest speakers. And on deck there are plenty of spaces to congregate to delight in the warm tropical air and brilliant rainforest views.

Cuisine on board is fresh, sustainable, and accented with regional flair.

“While our operations team and a band of shipbuilders have been readying the brand new National Geographic Quest for her inaugural season, my team and the ship’s chefs have been working with Lindblad’s sustainable sea food providers, and discovering others for fresh produce, craft beers and more local delights. We’ve developed menus with flavors that will open another window on the region’s “Pura Vida” for you. Prepare to experience Costa Rica with ALL your senses.”

—Ana Esteves, Manager Hotel Operations, Lindblad Expeditions

THE LINDBLAD EXPEDITIONS-NATIONAL GEOGRAPHIC FUND SUPPORTS MARVIVA

A regional non-profit organization with the mission to promote the conservation and responsible use of marine and coastal ecosystems, MarViva trains artisanal fishermen on responsible practices and their importance to the environment. Fishers learn about fishing gear, proper species identification, recommended sizes for different species, legal fishing grounds, and seasonal area closures.

WITH LEX-NG FUND SUPPORT, MARVIVA HAS IMPLEMENTED A TRACEABILITY PROGRAM, starting at catch-receiving centers in several communities in the Gulf of Nicoya region in Costa Rica, they track the fish product information all the way to partner points of sale.

AND MARVIVA ALSO HELPS ARTISANAL FISHER GROUPS DEVELOP THE TECHNICAL CAPACITY TO SELL THEIR CATCH to corporate buyers for a better price and under more favorable conditions. And they work with corporate buyers to spread awareness and encourage rewarding fishers who use responsible fishing techniques with economic incentives.

Keel-billed Toucan

DAY 1: U.S./SAN JOSÉ, COSTA RICA/ PUERTO CALDERA/EMBARK

Upon arrival in San José, transfer by land to Puerto Caldera and embark our ship *National Geographic Quest*. (D)

DAY 2: CORCOVADO NATIONAL PARK

Anchor off the Osa Peninsula to see some of the most pristine lowland rain forest on the Pacific coast. In the environs of Corcovado National Park, swim in waterfall pools, take an optional horseback ride on the coast, or trek through the rain forest for a chance to see four species of monkeys—howler, spider, capuchin, and squirrel. (B,L,D)

Golden-mantled howler monkeys.

DAY 3: GOLFO DULCE/OSA PENINSULA

Go ashore in the pristine waters of Playa Blanca. Head inland to meet and share with inspiring local families living in remote communities and working with cocoa, heart of palm, and sugar cane. Hike mature rain forest or kayak in peaceful waters in Golfo Dulce, the only tropical fiord in the continent. In the evening, enjoy drinks ashore and, hopefully, a beautiful sunset. (B,L,D)

DAY 4: GOLFO DULCE

Enter the mangrove-fringed Golfo Dulce along the southwestern edge of Costa Rica. Visit Casa Orquídeas, a tropical paradise of ornamental palms, bromeliads, heliconias, and orchids, closed to the general public and reached by boat only. Keep your eye out for tanagers, parrots, and toucans. Later, explore the placid bay, ideal for kayaking, stand-up paddleboarding, Zodiac rides, and swimming. (B,L,D)

DAY 5: COIBA NATIONAL PARK, PANAMA

The first stop in Panama this morning is at the remote Isla Coiba, one of the many islands of Coiba National Park, a UNESCO World Heritage site. Once a penal colony, the island has long been protected and accessible by special permit only. Among its many endemic

species are the Coiba Island agouti and the mantled howler monkey, as well as four varieties of sea turtle. Discover rich marine life while snorkeling, go kayaking or hiking, try stand-up paddleboarding, or simply relax on the beach. (B,L,D)

DAY 6: GULF OF PANAMA ISLETS/ PANAMA CANAL TRANSIT

Today, explore the tiny islets of the Gulf of Panama by Zodiac or kayak. Here we might spot frigatebirds, brown pelicans, neotropical cormorants, and brown boobies. Set sail for the Panama Canal this afternoon. Stretching more than 50 miles, the canal was a colossal engineering feat completed in 1914. It is still traversed by some 14,000 ships every year. As cargo ships tend to pass through the canal during the day, we'll most likely begin our crossing at night, when the canal is dramatically lit. (B,L,D)

DAY 7: GATÚN LAKE/PANAMA CANAL TRANSIT

Board our Zodiac to visit Barro Colorado Nature Monument in Gatún Lake by special arrangement. Scientists have worked at the Smithsonian Tropical Research Institute on Barro Colorado Island since 1923, researching its 120 mammals and diverse tree species. It is also the site of a National Geographic-supported project that tracks tagged animals using automated radio signals and wireless technology. Join local guides for a walk through the forests. This evening, continue through the complex lock system of the canal. (B,L,D)

DAY 8: COLÓN/PANAMA CITY/U.S.

After breakfast, disembark in Colón and transfer to the airport in Panama City for your flight home. (B)

TERMS & CONDITIONS

Reservations: To reserve your place, an advance payment is required at the time of reservation. The per person advance payment amount varies by program, and is outlined in our brochures, as well as on our website. Holiday departure dates and certain longer voyages may carry additional advance deposit requirements due to high demand for these voyages. Payment is accepted by Visa, MasterCard, American Express, Discover, or by check.

Receipt of your initial payment indicates your acceptance of our complete Terms and Conditions. We require written notice at the time of reservation for any physical condition, diet, or treatment requiring special attention.

Once your reservation is confirmed, we urge you to use your personalized online account for important information to help you prepare for your voyage. Managing your documents online will facilitate fast and accurate communication, and allow you to provide us with pertinent details we require, in order to complete your reservation. Your online account gives you access to your Expedition Guide, which includes valuable information specific to your voyage. You can also use your online account to make easy payments, view recommended flights and reading material, packing list, and so much more.

Final Payment: Due 90 days prior to departure.

Travel Protection Plan: We recommend that you take advantage of our Travel Protection Plan. This plan offers comprehensive coverage to protect you from cancellation fees, costs incurred due to trip delays/interruption, damaged or lost luggage, medical assistance, and evacuation during your travels. Our Travel Protection Plan is available for U.S. and Canadian residents only, and may be purchased any time prior to final payment due date. If you are not satisfied for any reason, you may return your plan within 10 days after purchase. Your premium will be refunded if canceled within 10 days, provided you have not already departed on the trip or filed a claim. When so returned, the coverage under the plan is void from the original date of purchase.

Smoking Policy: Smoking is allowed only in designated outdoor areas.

Entry and Visa Requirements: All guests are advised to verify travel documents (passport/transit visa/entry visa) for the country through which they are transiting and/or entering. Reliable and most current information regarding international travel can be found by contacting the consulate/embassy of the country(s) you are visiting or transiting through. We will not be responsible if you are denied entry or transit into a country if you are unable to provide valid documents as per the country's requirement.

Responsibility and Other Terms & Conditions: Certain other provisions concerning, among other things, limitations of Lindblad Expeditions' and the National Geographic Society's liability for loss of property, injury, illness or death during the voyage will be provided to all

guests on the ship's ticket sent prior to departure, and are also available on our website at www.expeditions.com/terms, or upon request. By registering for a trip, the guest agrees to all such terms and conditions.

Note: Itineraries and prices listed in this brochure are valid as of publication date, and are subject to change. Under normal conditions, the total expedition cost is guaranteed at the time of booking. However, the published price is determined far in advance of initial departure on the basis of then-existing projections of fuel and other costs. In the event we determine that current costs create an unsustainable financial model, including but not limited to increases in the price of fuel, currency fluctuations, increases in government taxes or levies, or increased security costs, we reserve the right to pass on these costs to you, to cover such unexpected increases. We will always provide a transparent accounting of the reason for such an increase in costs.

Any revisions you make within the cancellation penalty period, such as departure date or choice of voyage, are subject to cancellation fees.

Note: Airline cancellation policies vary by carrier, as well as the type of fare used to issue your ticket.

Cancellation policy for certain longer voyages and Holiday departures may vary due to high demand for these voyages. TRAVEL PLANNING WITH A DIFFERENCE

Half of travel planning is learning what you don't know and generating questions. The other half is getting answers.

When you call **1.800.EXPEDITION**, you can ask for any one of our Expedition Specialists who have been on our expeditions. They are full members of the Lindblad Expeditions team—students of the natural world and born explorers, not trained call center telemarketers.

SO WHY NOT TAKE ADVANTAGE OF THEIR EXPERTISE? Don't hesitate to call with your questions—they're equipped to provide answers based on their knowledge and personal experience.

Ask them about how we explore, our ships, our itineraries, and more. We think you'll find the conversation rewarding.
